

# PROVE ALL THINGS!

## THE Name of The Savior!

Personal names are transliterated not translated. The word water in English is translated aqua in Italian. There is no connection whatsoever to these two words; they are totally different in two different languages. But personal names such as George Bush are not translated but transliterated into any given language. This means that the name stays the same it may just be phonetically pronounced a little different in each language. Listen to a broadcast in Spanish and you will hear all Spanish words and then a name such as George Bush. So names stay the same no matter what language they are in.

The next question you may ask then is why is our Hebrew Savior's name in most bibles changed from his original Hebrew name of **Yahshua** to the Greek form "*Jesus*". The word Jesus at best is a poor transliteration of Yahshua and at worst is transliterated from an ancient Greek god of healing called IE – Zeus. In Greek there is no letter J and the J has a "ie" sound.

The answer to the above question is it shouldn't be changed from Hebrew to Greek. It not only strictly goes against the third commandment to take YHWH's name in vain, but it also breaks every rule of grammar. In vain means to change, falsify or to make common, and changing the name of Yahshua to the name Iesus is definitely going against this command. Let's for a moment take the argument of some that the name Iesus is a proper transliteration of the name Yahshua. There is no grammatical rule in any language to transliterate a name into one language before transliterating that name into your language. **NONE!** So why would we do this. Why would we transliterate the name Yahshua into Greek and then English? If we are going to use the English transliteration of Yahshua it would be in English Joshua. Joshua and Yahshua phonetically sound very similar.

Also in Hebrew every word goes back to a 2 or 3 letter root word and has some meaning. Yah Shua means Yahweh is Salvation, or the Salvation of Yahweh. Jesus or Iesus in Greek has no root or meaning.

Also, it is stated in the book of John that Yahshua said He came in His Father's name. In Scripture the Father's name which is revealed in Exodus 3:15 as YHWH and pronounced Yahweh. The name Yah Shua is directly from the name Yahweh.

One other scripture that clearly shows the name of our savior was Hebrew and not Greek is in the book of Acts when Paul is recounting about when Yahshua first appeared to him. Look carefully at what Yahshua said to Paul.

**Act 26:14** "And all of us falling to the ground, I heard a voice speaking to me, and saying in the Hebrew dialect, Shaul, Shaul why do you persecute Me? It is hard for you to kick against the stakes." **Act 26:15** "And I said, Who are you, Sir? And He said, I am Yahshua whom you persecute". Very clearly

Yahshua spoke to Paul in Hebrew and would have used His Hebrew name, not Greek, remember there is not even a letter J in Hebrew or Greek.

It is clear that our Savior was of Hebrew stock and was, according to Scripture, the Son of David in the flesh as well as the Son of Yahweh. So why would we refer to our Hebrew Savior who came to redeem Israel for the sins committed under the first broken covenant by a Greek name. Maybe in the past you could claim ignorance but now you know the truth and don't have to be ignorant any longer. Let us give honor to the one name under Heaven and earth where all men will be saved,

### Yahshua Ha' Mashiach !

**Act 4:12** And there is salvation in no other man, for neither is there any other name under Heaven having been given among men by which we must be saved. **Psa 34:3** O magnify YAHWEH with me; and let us exalt His name together.

It is clear there is only one name given for Salvation. How can you exalt something you don't acknowledge? Give the glory to the name of the Father Yahweh and His Son Yahshua!
