

Transcript - The Arab Spring in Prophecy

Today, we didn't really have this on our schedule but we added to it because I don't think we will have any other time. I really want to talk about some prophetic things. We haven't got into too much prophecy and as we are seeing things happening, it's amazing because many of these things were written thousands of years ago. And really, as you are starting to see these things happening, you're really seeing the pages of the Bible jumping off the pages.

Now, what I'm going to do is, I want to go into **what started the Arab Spring**, how all these things came about and then I want to give a little exhortation of what's been happening the last few months. Because, certainly in America they are not really getting the news that's going on, what's coming behind it ... like I'm telling you **in late August we came within a hair away from World War III** ... I mean a hair away from it. And like I said, in America most of it was polls; should we do this, shouldn't we do that. So I want to explain what's behind this and where we are going from here.

When you are talking about end-time prophecy, it's virtually impossible to put them all together in one hour so I'm going to have to hit the high points on it but I want to start out with where the plans started. You know in many messages I have started, if you look ... because people say, like in Matthew 24 *this generation shall not pass until this starts to happen*. **What generation, what is the beginning of it?** *Seventy years to Babylon and then Babylon will be destroyed*. Well, **when does it start?** You see, once you know the starting point of a lot of these things, then you know the ending point.

And very very clearly, **the end-times started with Israel being a nation again**. Interestingly enough, there was something called The League of Nations that started after World War I. It fell apart, it did not work and in 1945 they started the United Nations. They also started the World Bank, the International Monetary Fund; **all these end-time entities** are not from hundreds and hundreds of years ago. They all started in 1945 with the premise of starting a Jewish state ... not to help the Jewish people but because the plan was ... and you can go back, you can read the United Nations Charter when Israel became a nation in 1948 and you can see it. **The plan was to have a Jewish state alongside an Arab state**. At that time it wasn't even Palestinian, so to speak, because there weren't really any Palestinian people. A matter of fact, in 1945 when the United Nations was started, if you talked about a Palestinian, it was actually a Jewish person that was living here. Because it was called Palestine, it comes from the Romans going way back and there wasn't a land of Israel yet, until 1948.

But I'm not going to go there, **Psalms 102 clearly outlines the holocaust**. We were yesterday in the Holocaust Museum and you got to meet with a holocaust survivor ... really moving testimony that the woman gave and I was really appreciative of being able to hear that. And it talks about that, it talks about the **bodies being burned**, it talks about ... you read Psalm 102 ... all things leading up to where it almost looked like all the Jews were going to be extinguished. And then the prayer comes out and says to the Father, "Please help us" and they are asking for this ... and I am going to talk about this tomorrow when we get into the DNA of the Bible which is a pretty interesting subject. So I won't go into too much of that today. But after that, Yahweh clearly says *there's an appointed time. Don't worry, the Jewish people are not going to be destroyed. Israel is not going to be destroyed. There is an appointed time when Israel would be a nation again*.

Now interestingly enough, if you go back to 573BC ... the year Ezekiel is writing his book and **Ezekiel is the watchman** of the book. He's got all the times there ... and you look at the prophecy to Israel, right. You've got Leviticus 26, you've got Deuteronomy 28; the blessings and the cursings. *If you follow My statutes, My commandments, My Torah, I will bless you, I'll bless your land, I'll bless all these things. If you don't, you're going to be cursed and eventually you are going to be cast out of the land*. And clearly it says, *if you are cast out there is 7 times*

duration of punishment. It talks about it 4 times in Leviticus 26; 7 x 7 x 7. So if you take a prophetic year, 360 days; and you times that by 7, you come out with 2,520 years. Now interestingly enough, if you take that **573BC when Israel was completely cast out of the land** ... remember that there was a remnant that was left here that later went down to Egypt and Ezekiel starts writing in 573 and you add that 2,520, you come up with the year **1948**. So, **it didn't just happen**, it wasn't haphazard. There was a time of punishment ... just like when Yahshua born, what did it say? *At the appointed time*; it says the same thing in Psalm 102 that **at the appointed time Zion would be there**. Then it goes on to say when Mount Zion, when Zion ... which is Jerusalem ... is rebuilt, the Messiah will appear.

And I was telling you on the bus, there's almost a million people living here now. It started as this tiny little city of David and now it's expanded to here. We are still part of Jerusalem here. But it wasn't part of Jerusalem in the first century but it's expanding. **Zion has never been more built than it is now**. And then what does it say? This will be *written unto the last generation*. Many translations put *to a generation to come* but it's 'acharondor', literally means '**the last generation**'.

So there it is. We know the beginning of it is Israel being a nation again. Now, the way that Yahweh works, like we said, *the kings of the earth make their plans and Yahweh in the heavens laughs at them*. So how does Yahweh, what does Yahweh, the means He uses to create the end-time state of Israel? He uses the United Nations, the Beast power. **He uses an evil entity but He still uses it for His purpose**. May 14th, 1948, it is prophesied and Israel becomes a nation and nobody is going to stop it.

But when Israel became a nation, it was **not to create a new Zionism**, it was **not to bring back the Torah**, what it was ... remember, all this starts in the late 1800's on Mt. Hertzl. Theodor Hertzl starts the **first Zionistic conference** in the late 1800's, right, and he is trying to bring up Zionism again. But when it came to fruition around 1910 you have the first kibbutz ... remember we talked about communism and socialism? Kibbutz is about the only communism that I ever heard about that **kind of worked** but it was still communism. When these people were coming back to the kibbutz, who were they? They were 18-23 year olds, they were not religious people ... matter of fact, their families in Russia and these other places, they were disowning them and there was really nothing here. So the plan was ... why did they allow it?

Some people think Israel only became a nation because of the holocaust. That's not true. **The holocaust may have pushed it a little bit but it was in the works from the early 1800's**. Why? Because of the Mazzini Letter; **the Mazzini Letter in 1880 that talked about 3 World Wars**. It talked about the 1st World War with changing over the Communist Regime; it talked about the 2nd World War that would bring in cold war with taking down the Tzars and all that with the cold war with Russia and America. And the 3rd World War is where it talks about **a world religious war** between the Christians and the Jews and the Arabs, exactly what they are leading up to.

So this was in the 1800's, they were allowing the Zionism because what they wanted to do is **make a secular nation here**. That was the plan from the beginning of it. If you look at the United Nations Charter of 1945, Jerusalem was never part of the plan. **Jerusalem would be internationalized**. Even Shimon Perez who is the President of Israel ... he is what is called a **Sabbatean**, not the ancient Sabbateans who were the traders of the spices, but it is **a cultic form of Freemasonry** and they are people that **totally disbelieve the Bible**. They believe the Bible says you shall make murder, you commit adultery and that they believe that the Jews and the Christians, we have perverted it. So they are very evil people and he's one of them, he's one of the top ones. John Kerry is also one of these. And it's not a co-incidence who's in power now. But the word **Perez, who was one of the architects of Olso with Yitzhak Rabin** ... and some of you who have been with us for the long haul going back 10 years, you remember when Barry Chamish spoke here twice and he wrote the book, *Who Shot Yitzhak Rabin?*. And the big

guy behind it was Perez, Shimon Perez. And isn't it interesting the word 'perez' means '**divider**', exactly what he is trying to do. So this has been a plan for a long time.

What the plan was was, they didn't see Israel as strong. Remember 1948 when the Arabs declare war, Israel just has a few tanks, hardly any weapons. They could barely defend themselves but they had something greater, **they had the Elohim of Israel and He was their provider and they won the war.** So they didn't figure Israel was going to become the power that they did, at least in the Zionistic sense. Of course America, Israel being somewhat of a colony of America, America uses it for where they are trying to push this world entity but that was the plan going back from 1945/1948. Create a state of Israel, a secular state ... matter of fact, Labor ... you know that you have over here Likud and you have Labor. The **Labor** basically were **all communistic**, everybody from Labor and that was the only party in the beginning and they swayed all of the people here to communistic thinking. Like I said, kibbutz ... although kibbutz is a good thing, you know in the beginning of the kibbutz movement, people didn't even get to keep their children. And the very first kibbutz when they started, your little babies when they are born, they go somewhere else. They sleep somewhere else, they are indoctrinated somewhere else and like I said, the only reason why it worked here ... because when you look at why communism really fails, it's always where it makes a vacuum for a Hitler or a Stalin can come in. That never really happened in this system. They did keep the government on a local level but still it's not Yahweh's way. The parents should be raising their children not the 'community'. They are not children of the state, so to speak.

So from 1948, this is the way it went **and their whole plan was to bring this One World Government through creating a Palestinian State which would enable them to take over Jerusalem, bring the anti-Messiah and all these things would come** ... at least the top people. Now we saw from that video the other night, there's only about 10% of the people at the top who are making the decisions and the rest are the useful idiots. They really are, I hate to say it but that is the way it is.

The same in America; in America you have close to 60% of useful idiots that are following this communistic manifesto without even knowing it. And what really surprised me this year, traditionally in America the Jews are secular and traditionally in America, they go more to the left. They are more Democratic. Now, this year I thought for sure or last year in the election that they would change because this was the first time there was a **President that was looked at as anti-Israel.** But what happened? Overwhelmingly, the numbers were still they were voting Democratic. Because it had nothing to do with Israel, **they were ready to sacrifice Israel** as long as they can keep their abortion, as long as they can keep all their liberal ways and that is why they are useful idiots. Because, give them some food in their mouth, give them \$50 of a free cheque and that's all they want. They are not looking at the big picture. They really don't care if the society falls apart because their mind is 'what I can get for free'. So they use this and it the same way it's used in Israel.

So this went on from 1948 going all the way through to Oslo. In the 1980's ... this is why they talk about Ronald Regan as being one of the greatest Presidents in the history, not just in America but in the world, and they also talk about John Paul II who is seeing sainthood now ... because **Ronald Regan was not a Freemason when he came into office but after his assassination attempt, he did become honorary 33rd degree Mason** ... so believe me, you don't get to be President without that ... so I liked Ronald Regan, I liked what he stood for, I thought he was very diplomatic. He was a part of it as much as anybody else. That movie we saw tried to pit Regan against this Democrat or whatever, is nonsense. Democrat or Republican, they are all on the same wavelength as long as it comes to Global Government. But **Regan was able to work with Gorbachev** and the problem was, from the end of World War II when they sat down ... and it talks about the beast in Daniel. We've talked about this many times about the head of gold and then silver and bronze, then iron. Then it says the feet were partly of iron and partly of clay and the same way that iron and clay doesn't mix, that they are the seed of men but

they won't mix together. Interestingly enough at the end of World War II, **Eisenhower** whose name means 'iron' sits down with **Khrushchev** whose name means 'clay' and they divide it, just like it says, part communistic, part socialistic or democratic.

But now, it's not decided who's going to run this. And even today, that's why it's falling apart which I'll get into in a little bit. It wasn't decided. It was decided that we are going to have a government and that is why you have **5 heads** of that government. You had Great Britain, you had the United States, you have France, you Russia, you have China. It is interesting when you look at Daniel 7 and you look at Revelation 13, who do you have? You have the **lion with eagle's wings, America and Great Britain**. You have the great air power, Britain being the great lion, America being the eagle. Then you have the **leopard** who represents **France**. You have the **bear** that represents **Russia** and you have the **dragon** that represents **China**.

Isn't it interesting, out of all the animals they can pick, it's the 5 animals that represent the **Security Council of the U N**. Then it says that there's **10 other members**, 10 horns, remember 10 kings who don't have the same power as the 7 heads because there's 5 nations and you also have a President and a Secretary General. So there is **7 heads to the United Nations but then you have 10 rotating members who give their power unto the Beast**. That is exactly what it does. When you have a big decision being made, it's made by the 5 permanent members. It's not made by one of those 10 rotating council members. They basically go along with what the 5 members do.

So again, for many years they are working on this, trying to bring this together. Then all of a sudden in the 80's, when Ronald Regan was able to take down ... "Mr. Gorbachev tear down that wall." ... when he was able to tear down the communistic way, the cold war fighting, who's going to win and say **let's work together for the New World Order**, that really meant something. You had 2 ends; you had religiously because remember if you look at the world empire that is prophesied to be at the end-time by the Romans, you had **Rome in the west**, you had **Constantinople in the east** which is modern day Turkey there, Istanbul.

So during this time, now you have religiously, right ... you have to bridge this gap because if you are going to have a one world government, you have to have a one world religion. So the government end was going good. Gorbachev is playing ball, the walls are coming down, they are liberating all these places but not for democracy as we see it today. They are liberating it for all these people to come under the European mize because now Europe is becoming the world entity and **Europe knows they want to lead it in the end**. They want to be the leader of this one world government. On the religious side, you had the Vatican. Here's the **Pope who's going into mosques**. It's the first time he has ever ... bridging the gap because remember there's a big thaw that has to be melted out here between Catholicism and the Eastern Orthodox of Russia; Russian Orthodox, Romanian Orthodox, all them. So John Paul II he was doing this. He started and even today the Anglican Church in England which was totally opposed to Catholicism when you go back, part of the Protestant Reformation ... they are working together. Priests will come into the Anglican Church, the Anglican ministers will come into the Catholic Churches; **they are all bringing it together**. And that is what opened up the **Madrid Conference which happened in 1987** to start the process now of bringing in the **Palestinian State to bring the One World Government and the rule of the anti-Messiah from Jerusalem**.

So then they set **up Oslo in 1993**, and they are thinking this is really going to work. All the powers are united. Remember in 1991, George Bush I is the leader of America, he's the President, he goes to the United Nations ... **first time ever, openly talks about the plan**. It's going to be a thousand points of light which is the same thing Hitler said. He's talking about the **Millennial rule by their Elohim**, not by ours, and he said it's a diverse ... he said it's a big idea where diverse nations from all over the world work together toward **a New World Order**. And you can listen to that speech on line. He mentioned the New World Order 4, 5, 6 times in the speech. **First time ever it is openly announced** because now they really think it is coming.

All the Arabs come on board because they tell the Arabs, "Look" ... Babylon, money right? ... "We'll funnel all the money to you. We'll get you involved in all this. You'll be making money like anything." Part of the deal was, "We'll get oil up to \$100 a barrel so you'll be making money hand-over-fist and we'll solve the Palestinian problem." And it's great, on their end you **solve the Palestinian problem and we get rid of Israel and we solve that problem**. And Israel is always the guy on the outer ends because they really don't need Israel. What they **need is a Palestinian State so that they can bring in their anti-Messiah to rule over it**. So everything looked good, right, during Oslo?

Then all of a sudden ... because when Oslo was written, it was very vague and **Oslo never talked about a Palestinian State**. It never talked about sovereignty like that. They never even said how long it was until it was almost over. We didn't even know it was a **7 year agreement** that was coming from there. So all this stuff started; they are working toward it and all of a sudden, Yitzhak Rabin gets wise to a couple of things. Number one, they were going to divide Jerusalem, they were going to do some things that he figured, *No way, I can't go through with this*. He was going to back out, they **assassinated him**. Then all of a sudden in 1995, they **confirmed the agreement**, the same thing and it moves on.

The plan was, in the year 2000 ... they already had it set up. Pope John Paul II was coming to Jerusalem. They were going to give him the keys to the Temple Mount. They had all this **big festivity** that was going to be and that is why they pushed, they pushed, they pushed the Israelis. **Benjamin Netanyahu** during the 'Y' meetings in 1998, they just forced Israel to give up almost everything. So then 2000 came, they were having the meeting ... if you remember with **Barak and Arafat and Clinton at Camp David** and that was going to be the end. They were going to come out of this and they were going to announce, "**We have a peace deal!**" And the world would go crazy, everyone would be excited. They were going to **build something on the Temple Mount** that was going to be some kind of temple of synagogue with a mosque and a Christian church ... talk about an unholy trinity, right? But it is all in the Oslo Papers. They were going to build this and **all religions would work together and we respect everybody** and it doesn't matter what you are. Well, they come out of the meeting and Arafat says, "No!" They didn't realize what he had planned, **Arafat says no**.

We know what happened. the **Antifada** starts; everybody is calling for calmer heads. "We have to keep this together ... Look we came too far ... We have been working for this for 50 years." And it starts falling apart. So what you hear then for a number of years is "We have to ... This is our last chance ... The window is closing ..." How many times have we heard that, right? That the gates of hell are going to be opened and it was right because they knew what was the alternative.

Then all of a sudden, by the time Bush got out of office and it never happened, they decided, it ain't going to work this way. It would have been nice but it's not going to work this way. So we are not going to be able to bring a New World Order, **we are not going to be able to bring a 2 state solution through peace, we are going to have to do it through war**. And that's different because, remember **during the 90's and Oslo, terrorism went up 500%**. Once the Antifada started ... you guys know in Jerusalem, every week was a suicide bombing. It was **awful**, it was horrible and this was during the peace plan. Why did they allow it? **Because they figured the more terrorism they could bring, it's going to force Israel to give up more concessions**. And it was being allowed, even by the Israeli side. It is written in some of the documents that **some of the leaders in Israel knew this and allowed it to happen** because in their mind it is for the greater goal of bringing peace.

But I knew there was a problem when the Arab Spring, so called, started about 3 years ago now. I knew there was a problem because remember, it's very difficult to get the right parameters for this and that's why, when they say the window is closing, once people change parameters it's almost impossible ... what you are dealing with here and I'll explain a little bit because it's not

just Arab/Israeli, it's not just Jew or Muslim. There are all kinds of factions to the Muslims and how they are against this and against this. It is very complicated yet they had their ally from the beginning up in Turkey ... and **Turkey is a major end-time player** as you are going to see here in a few minutes. Turkey is on their side unconditionally. Matter of fact, after World War I the Ottoman Empire fell and Otto Turk was the leader; it was a secular nation so by law, they can't have a religious entity there.

Now when Turkey was the leader for 400 years, from 1517-1917, the Ottoman Empire, they were **ruled under Caliphate**. They were ruled under Islamic law. As soon as that ended in 1917, what starts in 1926? The Muslim Brotherhood, the **whole purpose of the Muslim Brotherhood was to bring about a caliphate again and go back to that radical form of Islam**. So you can see the Muslim Brotherhood, there is no neutral side of the Muslim Brotherhood. We'll see that, we will talk about that in a bit. I'm just trying to lay the groundwork so that as we get in to the players, you will understand what's happening here.

So they had an ally in Turkey here, a major ally. They had on the other side an ally in Egypt. For 30 years, since 1979 when they gave back Sinai, they had **Hosni Mubarak**... maybe he's not the best guy in the world but I've got to say this, for 30 years he kept peace in Egypt, there are no problems and **he set down with every Israeli leader**. He's not a Saddam Hussein. He wasn't over here saying no, he was the best ally, at least Islamic ally that America had in the region. And the minute an uprising is coming over night that is supposedly not planned, although it was, and within a day **America comes up and says Mubarak must go**, that's the day the hairs on my back went up ... 'cause I said we are in trouble. We are in big trouble here because if you had all this terrorism and all this trouble through bringing a plan through peace, **what is going to happen when they bring it through war?** And that is what this whole Arab Spring is about. It's about radically changing the whole dynamics of the Middle East **so that Israel cannot be defendable**. Even when we talk about Syria, wow, when I explain that, it is almost unbelievable. Think of all that is going on there and what's happening, some the weapons are getting into the wrong hands.

So what happens? Then again they start going in Tunisia, Libya, Egypt, all these places; turning over, turning over. There is evidence now ... there is an **arrest warrant out in Egypt for Barak Obama's brother** because of the things going on there. When we talk about Egypt, there is **major problems with America, particularly Obama, with Egypt right now because of some of Obama's ties to the Muslim Brotherhood**. The attack that just happened in **Kenya**, there is factual evidence ... I have just seen pictures with **Obama with the commander** that is part of the government who didn't win the election, who caused dissention in Kenya to get into the government. And there the connection goes to Somalia and when Kenya went down to Somalia to help against the terrorism, that's what started all these problems in Kenya. We know Mali also.

So **Africa is becoming a tinder box** and I have actually explained this even in **the Knesset**. I've had meetings with people in the Knesset explaining this and basically to me they have said, "Look, we have enough problems. We understand it but there is nothing we can do." And I say, "Well, help me because that's our goal. Help me to go throughout Africa and **share the good news of Israel** and what we should be sharing with that and then you are solving your problem." And they like the idea because **every single person that we can get to be Zionist and pro-Israel is one less person who is going to be radicalized by Islam**.

But they are going to have a big problem because Africa is not North America. You cannot allow Northern Africa to become radical Islamic or you have a major problem over here in Israel because how do you control it. At least with the **West Bank and Gaza**, they can **control to a degree the weapons coming in. They have no control over Africa**. They have limited control to Syria because they have intelligence and they see something they don't like, they can always bomb it. But they don't have the same thing in Africa.

So this is what set up where we are today and like I said, **we are at a dangerous, dangerous point**. What I would like to do now is, I want to go through scripture and I want to show you each of the players which scripture says about it. And then after that, tie it all in together on what does it mean and what can we see coming from here. First let's go to Zachariah 1 because under George Bush II ... like when I said Oslo fell apart under Bill Clinton and he left office and they have been trying to pull it together, they started something called '**The Roadmap**' which is **again only a continuation of Oslo**. And they set up what they called '**The Quartet**' ... anybody who knows music; quartet is like 4 singers or 4 players. The Quartet is made up of the **United States, United Nations, Russia and E U** and these **4 entities are working together toward bringing about this Palestinian State** and interestingly enough, when we look at Zachariah 1 ...

Zec 1:18-21 *Then I lifted up my eyes and looked, and, behold, four horns! And I said to the Messenger who was talking with me, What are these? And He answered me, These are the horns that have scattered Judah, Israel, and Jerusalem. And YAHWEH made me see four craft masons ... All this is done by the Freemasons who are craft masons. That's where it started from, right? You know they have their aprons that actually aprons that held their tools, their hammer and whatever. So he says He made me see 4 'craft masons', that's literally the word in Hebrew ... And I said, What are these coming to do? And He spoke, saying, These are the horns which have scattered Judah, so that no man lifts up his head. But these have come to terrify them, to throw down the horns of the nations who lifted up their horn over the land of Judah, to scatter it.*

So we clearly see that this **Quartet or these 4 horns, they are not there to help Israel, they are there to scatter Israel. They are there to divide the land**, they are there to separate it. Also in Daniel 9:27, we know the Daniel 9 prophecy talks about there will be 70 shabuim or Shavuot, 70 7's till the coming of Messiah but then it talks about 69 of these weeks till the Messiah, and there is a time period in between and it talks about in verse 27, talking about end-time.

Dan 9:27 *And he shall confirm a covenant with the many for one seven. And in the middle of the week he shall cause the sacrifice and the offering to cease. And on the most outer corners, abominations by a desolater, even until the end. And that which was decreed shall pour out on the desolater ... That word for 'confirm' in Hebrew means to 'revive and already existing agreement'.*

So again Oslo, **Oslo, the Roadmap**, call it whatever you want. They will probably do ... what they do, like we saw in the movie the other night. Communism, they know people don't like the name 'communism' so we will change it to 'socialism'. They don't like 'socialist' so now we change it to 'progressive'. The terms are changed, they are all the same people and that's what they do. They fold up house here and they go up start something new with another name doing the exact same thing. So clearly **this is an already existing agreement that's being confirmed** and we know already that it's **Oslo** which the Bible calls '*the covenant of death*' and literally it is **the covenant of death**.

So like we said, the plan isn't working. They decided now to go toward bringing the One World Government through war, not through peace but there is another problem. The other problem is they are not really in agreement because what happened was ... like we said, with Ronald Regan taking down the Iron Curtain, Russia looked at it as okay. "We will give here as a means to bring about this world community, 'cause we are going to be **co-sharers with America**, right? Why fight them in the Cold War, let's work together and we will both control the world. " But America looked at it as a sign of weakness that, "Hey, they are weaker now, now we can control it."

So as they are working together, and it did work for a while, if you look in the 90's what was done in the New World Order; Bosnia, Kosovo, Grenada, all these military operations, and even with

Iraq that was probably their cream on the pie ... because every nation in the world worked on that war in 1991. You know they were all together on it and that's really ... **Iraq is really what started this One World Government** but then after 2000 and the Intifada came and things were kind of going south, the **eastern allies; China, Russia, North Korea**, these other ones, they were **getting suspicious** because they are saying, "You know something? Number 1, we didn't get the Palestinian State that was promised" ... the Arabs were saying this.

Matter of fact, I believe it was in 2007, AmrMoussa who's an Egyptian but he was the head of the **Arab League** ... and I heard him with my own ears, he was on an interview. I don't know if it was with the BBC or one of them and he clearly came out and said, "When Papa Bush was in, he promised us these things, he promised us a Palestinian State. We didn't receive anything. We got nothing from it." And then they kept pushing the Arabs, "Give us a little more time ... Give us a little more time ... Give us a little more time." And they basically ran out of time. And that's why when Barak Obama first got into office, his first year, which was the same time that Prime Minister Netanyahu was coming into office, there was **one final push**. And they said, "Okay, we'll give him one year" and it didn't work. We know what happened. Just like now, there is **absolutely zero conditions for peace right now**; none, unless it's forced upon. But we will talk about that in a little bit.

So anyway, when it didn't happen, that is when they went into this **Plan B**. But now all of a sudden, what is happening? They are going into **Tunisia**; they are turning over the government and what is happening? Muslim Brotherhood. Then they are turning over **Libya**; what's coming in? Muslim Brotherhood. Then they are turning over **Egypt**; what's coming in? Muslim Brotherhood.

So remember, to Russia who is not religious whatsoever, they are looking at this simply from a strategic point of view of world control, more of a communist world control. The Americans claim they have the same viewpoint. They both say it because American leaders are not religious whatsoever and if anything they are totally anti-Christian bias. So they are looking to **use Islam as a means to bringing that and that is why they never attack Islam**. You never hear anything but Islam is a peaceful religion; it's a religion of love; all these other things because it's a **means to their end**. And then they figure once they get their end, they will destroy all the radicals which they believe they have the capability of and most of the other Muslims will fall into line. That's what they are thinking.

But now as **America is openly, they are openly supporting the Muslim Brotherhood**, the other ones are thinking, *Wait there is a problem here. There's something that is going wrong in this premise.* And then all of a sudden, about a year and a half ago, they have elections in Russia, right ... Remember Putin was President for 2 terms? He left, Medvedev came in as President, Putin became Prime Minister for 2 terms and now Putin's back. So what did Hillary Clinton say? The same as they said, "**Gaddafi must go.**" "**Mubarak must go.**" They said "**Putin must go.**" And when he heard that, he realized endgame, endgame. They realized what was on the American mind.

They came out, the Americans said, "By 2020, we will have **80% of our ships in the Chinese Sea**" and you have got to realize something. Strategically speaking in the world we live in today, whether you like it or not, whether you agree with it or not, whether America likes it or not, they are the **only world super power** and once that happens, you can never stop from being the world's super power ... because what would happen if tomorrow America fell and Russia took over? Do you think Russia is going to say, "Ah well, you know what, we want to help America. We want to help the people." No! **They are going to want revenge and they are going to want to make sure American can never rise up again.** So once you become it, just like a dictator like King Herod, why does King Herod and all these other kings ... why do they kill their wives? Why do they kill their children? Why do they kill their relatives and their brothers and sisters? 'Cause anyone close to me is a threat and I have to wipe everybody out. And that's the mentality

over there. Like the movie even said, once the communists get in, they kill all the socialists 'cause if the socialists turned on their country, they will turn on us'. So, it's a very ... **Putin** is not just a communist, he was the **head of the KGB**. You know, when you have that mindset and you **trust nobody, even yourself** ... you look in the mirror and you're trying to figure out who you really are. It's a very dangerous game that is being played.

So, let's go into the players. **Hamas**, we have Hamas. Everybody knows who Hamas is. Hamas is a part of the Muslim Brotherhood, they were formed by the Muslim Brotherhood, they were formed as a terror group and to be honest with you, when they first started in **'87 Israel was behind helping Hamas get started**. Why? Because at the time Fatah was the enemy, so they were looking for somebody to combat that. The same way that America backed Osama Ben Laden, he worked for the CIA, that's a fact. He had a code name and everything else when the war was going on with Afghanistan and Russia. So Hamas gets started but like anything else, any radical Islamic organization, no matter what their first goal is, the end goal is always going to be the destruction of Israel. If we look at Isaiah59

***Isa 59:6-8** Their webs shall not become clothing ... So you are talking about a spider's web. Someone who is tricky ... or shall they cover themselves with their works. Their works are **works of evil**, and the act of **violence** (Hamas) is in their hands ... That word in Hebrew is 'Hamas' ... Their feet run to evil, and they hurry to pour out **innocent blood** ... Isn't that what Hamas does; suicide attacks, terrorist attack, everything ... *Thoughts of iniquity are their thoughts; wasting and ruin are in their ways. They **do not know the way of peace** ... Anytime they talk about peace, who is the one person who will not be involved in any of it? Hamas, because they don't know the way of peace ... and no justice is in their tracks. They have made crooked paths for themselves; everyone going in them does **not know peace**.**

If Israel thinks they are going to make a peace deal with Hamas or dealing with Hamas ... and that's the other thing, let's just say for an instance, that this peace deal that's going now, that they come out tomorrow and say, "We make peace." Tzipi Livni is talking over here with Ti Baraka and they agreed on all principals, we are going to have peace. The next question is, with who? Because Abu Mazen ... they talk about democrat right? "We want democracy." But remember that **Morsi from Egypt was democratically elected**. They didn't like him, so what; that is what democracy is, vote him out. What did they do? They **mobbed the streets and started riots**. And I am not for Morsi but do you want democracy or you don't?

Hamas was democratically elected. You know they have not had an election in the West Bank in about 8 years, I think it is. So the so called President Abu Mazen, he has no basis for negotiating for anybody. Who does he represent? He's not a democratically elected leader, so he has no premise and even if he does ... Let's say they make peace, they are not controlling one step of Gaza. **So you are going to make peace, you're going to give up all of the land, you're going to give all of this, you're going to give everything and then at the end of the day, you know what's going to happen? Hamas is still shooting missiles over. It's not going to solve anything**. So why on earth would Israel give up a scratch of anything? Like they say, "Land for peace!" What about "Peace for peace!" Hey, West Bank, if these people turn away their terror, Israel will help financially, they will help educate them, they will give money into their economy. How about peace for peace? Why won't that work? Why does it have to be land for peace?

But we see here, you are never going to have peace with Hamas because **their charter is to destroy Israel**. It is a **fundamental Islamic sick Satanic mindset and no matter what you are not going to change it**. And what people think, and I know what the Americans think ... the Babylonian mindset, not the American people ... the American government; they think that money will solve any problem. They thought when they threw all this money at the Arabs and raised up oil that that would make them happy. And sure, the Arabs will take every penny that you have, you know that. Go to the Arab area, they will let you buy whatever. There was a lady

one-time, she bought a little trinket or something and she came up to me and said, "Hey, you know what? Look at this that I bought. He wanted \$100 and I only paid \$20!" I said, "The problem is, it's only worth \$1." And it is true. We went back there and got her money back. So it's whatever the market can bear and that's the way the Arabs work. So they will take your money, they will take whatever you have, but in the end of the day, **their goal doesn't change ... to destroy Israel**. So it is impossible, it's impossible to ever have peace as long as you have somebody like Hamas who their name literally means 'violence'.

And my fear is ... because Hamas has got somewhat more, at least on the surface, they were never political before they took over Gaza and on the surface, they **seem** like they have got more ... what can you say, not as radical as before but they certainly are.

Pro 16:29-30 *A violent man ... Hamas ... lures his neighbor, and causes him to go in a way that is not good. He who shuts his eyes to plan perverse things, compressing his lips, he brings evil to pass ...* So I don't doubt that there may even be a plan. **Hamas may even come and sign a paper with Israel and that could be the worst nightmare Israel could ever do because they wouldn't keep it.** Matter of fact, according to the Quran, **they must lie** with their enemy and they are able to make these peace plans that they don't have to keep. Because any infidel, someone who is not a Muslim, it's your **responsibility before Allah to lie** to this person. So why negotiate with someone that does that?

Let's go now to Syria, Lebanon and Hezbollah. We saw in **2006**, was **the Syrian war** here. We were living in Galilee at the time. We saw the missiles coming down in the Sea of Galilee. Matter of fact, one of our neighbors was swimming when a missile came down right into the Sea. It wasn't a good time; it really was a bad time. It was the first time in the history of modern Israel that the terrorists were able to send missiles as far as Galilee. Before it was always the border, the top but this was the first time that that happened. And interestingly enough, something happened that at the time there's a political party that just started here 2005 under Ariel Sharon called **Kadima**. They are still around today. They are not as powerful as they were, but in Israel you never know. In the last election, actually not this election but the one before that, they had more seats than the Likud; they had 28 and Likud had 27; and in this last election they had 2. In the next election, maybe they will have 30 again. Politics here is extremely unstable and unfortunately the politicians are like travelling salesmen. They will jump parties; they will go anywhere because they will go where their place is. And they really have a lot of them, I wouldn't say all of them, a lot of them don't have an ideological view. They are just looking out for where they can keep their power.

So during this war, it was really interesting because as these missiles are coming, **hundreds of missiles every single day**. And from what I understand and I've talked to top generals in the army that have confirmed this, that the problem that Israel had at the time was they could not make a move unless it was approved by President Bush and Condoleezza Rice, more Condoleezza Rice approving under President Bush. **Their bullets were counted**, how many bullets they could use. And what they did, they called all these Reserves, they went up to the **Lebanon border** and they sat there for almost a week. Can you imagine the danger that is there? One missile can kill all these people ... Because they had to get the **Americans approval**. And I believe they look back now and say, "Oh, Israel lost that war. And they did this and they did that." But I believe 100%, if the Americans would have just stepped aside and let them do what they had to do, there would have been no problem. They can take care of Hezbollah very easily. It might take some time because they are in those mountains but you give it 6 months, we're going to lose some men but in the end, they could wipe Hezbollah out.

And by not doing it, Hezbollah just keeps growing and growing and growing because remember, **Hezbollah started with 5,000 to 10,000 men, probably now they are up to 30,000 to 40,000**. These are economies that have no money, zero, but what do they have? They have a lot of oil and what happens is, they take all the money that is coming from the oil ... not just from

their own country, you can get money from Syria and Lebanon, it's Iran. With some of the other countries, it's Saudi Arabia. And they are funnelling all this money to the terrorists, like in the Gaza Strip, and what happens? When you have 40% to 50% unemployment, and even the people that are working are making virtually nothing, and now you can entice 18-25 year olds ... remember that movie the other night, the ones they are after because their minds can still be impressionable ... and you can give them a good salary to fight for you, what happens? You're going to build a lot of soldiers really quick plus you are indoctrinating all this ... "You're killing Israelis, all these people." So that is really what happened there, up in that area. But **Israel didn't finish the job**. They could have and there is a prophecy that talks about it.

2Ki 13:15-19 *And Elisha said to him, Take bow and arrows. And he took bow and arrows to himself. And he said to the king of Israel, Cause your hand to ride on the bow. And he caused his hand to ride. And Elisha placed his hand on the hands of the king, and said, Open the window eastward ... That word in Hebrew is 'kadima'. Open the window Kadima. Here it is **Kadima is fighting the war** ... And he opened. And Elisha said, Shoot. And he shot. And he said, The arrow of **deliverance of YAHWEH**, and the arrow of **deliverance from Syria**; for you shall strike the Syrians in **Aphek**, until it is finished ... And what is interesting is Aphek is more on the border of Israel and Lebanon and that is who they are fighting in this war. But again **Syria is the proxy who is the proxy of Iran** but now today, a few years later, we can see why this was important because look what happens... And he said, Take the arrows. And he took them up. And he said to the king of Israel, Strike the earth. And he struck three times, and stopped. And the man of The Elohim was angry with him, and said, By striking five or six times, then you would have smitten Syria until it was finished; but now, you shall strike Syria three times.*

So they didn't finish the job and what became of them? **Hezbollah who had 40,000 missiles in 2006 has 100,000 missiles today**; missiles that can hit every part of Israel and even precision missiles that they never had then. Also Syria would have fell if it wasn't for Hezbollah helping them. You know Iran is pretty smart and they are funnelling all this and they definitely don't want Syria to fall and they have sent Revolutionary Guards to help up there in Syria. But they are not sending all the Iranian soldiers. They are just not doing it. Who do they use? They use Hezbollah and Hezbollah has sent thousands and thousands of Hezbollah soldiers. They are just starting to leave now because basically the war is over; Syria won. But without those soldiers and they are pretty good those Hezbollah soldiers, Syria never would have won this war. They would have lost the war and they would have been out. So that is what we see here that **Israel by not finishing up the job they caused the later problem**. And it's been happening since '48, they are too worried about the world pressure when the whole world's premise, at least from the United Nations is to destroy them and **they have to do what they have to do to protect themselves**. Forget the United Nations, forget America or anybody else has to say, when it comes to your national defense you have to do what you have to do to protect yourself. So we see here that it didn't work. Isaiah 17, like I said we came very close to war just a couple of months ago.

Isa 17:1,3 *The burden of **Damascus**: Behold, Damascus is taken away from being a city, and it shall be a **ruined heap**. And the fortress shall cease from Ephraim; and the kingdom from Damascus and the rest of Syria. They shall be as the glory of the sons of Israel, declares YAHWEH of Hosts ... So we see ultimately, this hasn't happened yet that Damascus is in ruins but we see it coming. We see all of the parameters that we need for these scriptures to be fulfilled coming about.*

Let's go to Egypt now because like I said, before this Islamic Revolution, Arab Spring, whatever you want to call it, started. We are going to go to Isaiah 19. It was really hard to figure out how on earth Egypt plays into this because the Bible talks about **Babylon destroying Egypt; didn't really see that happening**, Egypt was our top ally there. It talks about **chaos in the streets, Egyptians killing each other**. All these things didn't seem like ... and then you have got to start reading and maybe it's not an end-time prophecy, it just didn't seem to fit ... until the Arab

Spring started. Now let me read some of these scriptures, after the fact, and look how much they fit.

Isa 19:1 *The burden of Egypt: Behold! YAHWEH rides on a light cloud and comes into Egypt. And the idols of Egypt shall tremble from before Him; and the heart of Egypt shall melt in its midst ...* And I don't know if you saw this, but during that war and this was not something that was doctored on a web-site or whatever, but **on CNN and all the major networks** when that first started, there was like a **spirit that came, a green horse and he's riding on a horse and he jumped over and disappeared over onto the thing.** And then they tried later to say it was a rain drop, yeah right. But here it is, he says *The burden of Egypt: Behold! YAHWEH rides on a light cloud and comes into Egypt ...* So literally we are seeing this.

Isa 19:2-4 *And I will stir up Egyptians against Egyptians ... exactly what happened ... and they each man shall fight against his brother; and each against his neighbor; city against city, kingdom against kingdom ... exactly what was happening over there ... And the spirit of the Egyptians shall be empty in its midst ...* and that's how they feel. Now they are so discouraged, they don't know what to do and that's why, "Bring in **Morsi**. No, get rid of Morsi. Bring in the military." They don't know what to do because the economy is so bad, the money isn't, I mean it is a mess in Egypt, like you can't imagine ... *and I will swallow its counsel ...* Exactly what we see happening ... *And they shall seek to idols, and to the enchanters, and to the mediums, and to the fortune tellers ...* Where else do they go? ... *And I will shut up the Egyptians into the hand of cruel masters; and a fierce king shall rule them, declares Adonai YAHWEH of Hosts ...* Exactly what we saw when the **Muslim Brotherhood** came in, right? **Cruel masters**, can you imagine; you waited more than 30 years to get democracy and you couldn't take 1 year of this guy because he was bringing **Islamic law**. He was bringing **Sharia Law**, what they were doing to women, it was just so bad; they had 30 million people come into the streets when the military had to take back over. So exactly what the scripture says, I mean to a 'T', happened as we saw it.

Isa 19:11-16 *Surely the rulers of Zoan... in Egypt ... are fools; the advice of Pharaoh's wise counselor has become stupid. How can you say to Pharaoh, I am the son of wise ones, the son of kings of old? Where are your wise ones now? Yea, let them tell you now, that they may know what YAHWEH of Hosts has planned against Egypt ...* And that's what they are wondering, "Wow, we were told by the Americans everything would be good, we would be getting all this stuff." Now, they are in chaos and who do they turn to? ... *The rulers of Zoan are fools; the rulers of Noph are deceived; they also have led Egypt astray, the cornerstone of her tribes. YAHWEH has mixed a perverse spirit in her midst; and they led astray Egypt in all his work; as a drunkard strays in his vomit. And Egypt shall have no work that the head or the tail, the branch or rush, may do. In that day Egypt shall be like women; and it will tremble and dread from before the shaking of the hand of YAHWEH of Hosts, which He shakes over it.*

And isn't it interesting, as we are going to go here in a minute, that the **Psalm 83 war**, the war that is coming; if you look at everybody that is mentioned there, **all of the major Islamic nations are mentioned but one, Egypt**. Why? Because we are seeing it here, because Egypt is in disarray and they are different. Egypt are the Sunnis. You know basically, the Iranians and the Hezbollah and the Lebanese; they are Shiites. But now it's not just Sunni, Shiite; now you have military rule, which is secular rule compared to religious rule. Because the military, they want to keep peace and they don't mind religion but they don't want to see religious rule because people get fanatical when you have religious rule. So these are all the things that are coming into play. But here it is. A couple of years ago ... how on earth is all this going to come to pass? And now we are seeing it.

Isa 30:1-3 *Woe to rebellious sons, declares YAHWEH, to make counsel, but not from Me; and to weave a covering web, but not of My Spirit, in order to add sin on sin; who are walking to go down to Egypt, but have not asked at My mouth, to take refuge in the stronghold of Pharaoh, and*

*to trust in the shadow of Egypt. And **the stronghold of Pharaoh shall become a shame to you; and relying on the shadow of Egypt shall be a disgrace.***

This is exactly Israel's problem now. Israel trusted in America, they trusted in the **Sinai Treaty** and even when this was first starting, the Arab Spring, and I went to some of these leaders here that I know and I said, "This is trouble." "Oh, no. It will be fine. Oh, no. This is a good thing. Democracy is going to rise up." No way. So **Yahweh is rebuking the leaders for trusting in that.** And you want to know something, part of the agreement that they had with Egypt with giving back Sinai was, it has to be demilitarized. So now as you have 5,000, 6,000, 7,000 Al Qaeda soldiers in the Sinai Peninsula and Israel can't do nothing about it. They are not allowed to take their military ... if they enter Sinai, then they may have a war with Egypt that comes of it. So you can see, Yahweh is saying in these times don't trust in these leaders. Don't trust because overnight, something that seemed like the most stable thing for 30 years can turn into a nightmare, which it did.

And **they are worried now about Egypt because as Egypt goes so does the whole Arab world.** They are always the pinnacle and the leader of it and they have a lot of weaponry there, we know it; most of it coming from the United States. But isn't it interesting that **America who has been funding Egypt, militarily,** but when it looked like peace, how can you really argue with it? Give Mubarak money to keep peace there and he was but then when Mubarak falls and the radical Muslim Brotherhood comes up and when **Morsi** was campaigning to be the leader there, you know what he was saying? **Death to every Jew, kill all the Jews** and they have it all on videos. You can see this on YouTube, yourself. What does America do? When all the Congressmen and the Senators say, 'Okay, we had better step back and look to see whether we should give them aid' America approves to give them **F16 fighters.** Why would you need that in Egypt? Why on earth would you need that? To give them **400 new advanced tanks,** why would you need any of that stuff? Now what happens when the Muslim Brotherhood falls and the military takes back over, now America stops it ... because you see where their ally is. They said it, **America said it, "The Muslim Brotherhood is our strategic ally in the Middle East."** And that is what they are looking to do because they trying to bring this fanaticism. But He says to the Israeli leaders not to go for it.

***Eze 30:1-4** And the Word of YAHWEH was to me, saying, Son of man, prophesy and say, So says Adonai YAHWEH: Howl, Alas for the day! For the day is near, even the **Day of YAHWEH is near** ... This is talking about something right in our future ... *a day of clouds; it shall be the time of the nations. And **the sword shall come on Egypt,** and anguish shall be in Ethiopia, when the slain shall fall in Egypt. And they shall take her host, and her foundations shall be razed.**

***Eze 30:7-8** And they will be ruined amidst the lands being wasted. And her cities shall be in the midst of the desolated cities. And they shall know that I am YAHWEH when I set a **fire in Egypt,** and all her helpers shall be crushed.*

***Eze 30:10** So says Adonai YAHWEH: I will make the **multitude of Egypt cease** by the hand of Nebuchadnezzar king of **Babylon...** So **now Babylon is going to come against Egypt.** Who could ever imagined how this could have happened a couple of years ago. Now it is very tense that way. It's extremely tense that way.*

Eze 30:11-16** He and his people with him, awesome of the nations, shall be brought to **ruin the land.** And they shall draw their swords against Egypt and fill the lands with the slain. And I will make the rivers dry and sell the land into the hand of evil ones. And I will **waste the land** and her fullness by the hand of strangers. I, YAHWEH, have spoken. So says Adonai YAHWEH: I will also destroy the idols, and I will make vanities cease from Noph. And there shall not any longer be a ruler of the land of Egypt. And I will put **fear in the land of Egypt.** And I will make Pathros desolate, and I will set a fire in Zoan, and I will do judgments in Thebes. And I will pour my fury on Sin, the strength of Egypt. And I will cut off the multitude of Thebes. And I will set a **fire in

Egypt; *Sin agonizing shall agonize, and Thebes shall be broken through, and Noph shall have daily woes* ...So we clearly see here that just a couple of years ago you could never imagine it but now we really see what's happening, we really see what side each player is going to be on.

Turkey, going into Turkey from 1517 to 1917, 400 years; **Turkey was an empire and controlled much of the Middle East including the land of Israel, called the Ottoman Empire.** This time period is called the **Ottoman Empire as the leading tribe is called Ottoman** and we will see that in scripture. The leading tribe of Edom in these last days is called Teman and He says O Teman, Ottoman, the same word. Most people connect Esau to the Arabs but the Arabs came from Ishmael. Esau from the firstborn of Isaac, the seed of promise and that is why when you look at Turks, they don't look like Arabs because they are not Arabs. They are descendants of Esau. If we go to Obediah 9, we also know this through history and migration, that's where Esau eventually went to.

Oba 1:9 *And your mighty ones, O Teman... Ottoman ... shall be afraid, so that each man from the mountain of Esau may be cut off by slaughter.*

O Teman or Ottoman Turks are the descendants of Teman, the strongest tribe of Esau after migrating from the Biblical land of Edom. History tells us the Edomites moved to central Asia and then to Asia Minor which is modern day Turkey. The Edomites in Biblical times inhabited Mt. Seir, the modern city in Petra. In Turkistan is the SeirDarnia of the River of the Seir. Although there may be traces of Edomites in several other countries today, it is evident that modern Turkey is primarily where the Edomites went to ... and the country that is prophesied in the end-time.

We know from Daniel, **the 4th beast**, that is going to be resurrected, the **world government** is going to be led by the Roman Empire. And like we said, the Roman Empire, everybody thinks of Rome but also Constantinople in the East and that's why in America, although the Islamic problem might not be so good, it's not so bad. I know AviLipkin, last year said ... I don't know if he said there were 100 million Muslims in America, I don't believe it. You might have 10 million, which is very little ... of Muslims. But in Europe, it is a big problem. They have been migrating and if you bring Turkey, which has 90 million Muslims, they would be the **largest country and the largest Islamic influence into the E U**, which they are negotiating on it now. And all you need is a world war and believe me, Turkey will become part of it and probably the leader of it, when it is all said and done. So let's go to Psalm 83, something is really very interesting here.

Psa 83:1-8 *O Elohim do not keep silence to Yourself; do not be speechless; yea, do not be still, O El For lo, Your enemies are roaring; and those who hate You have lifted up their head. They take shrewd counsel against Your people; they plot against Your hidden ones. They have said, Come, and **we will cut them off from being a nation** ... That is what they are saying ... and that The name of Israel will not be recalled again. For they conspired together with one heart; they have cut a covenant against You... And now he is going to say who they are ... even the tents of Edom, and of the Ishmaelites; Moab and the Hagarites; Gebal and Ammon, and Amalek; Philistia and those living in Tyre. Also Assyria has joined with them; they were an arm to the sons of Lot.*

So when we look at all these people that is being mentioned here, **all of these countries are basically Iraq, Iran, Jordan, Lebanon, Syria;** all the nations that are not only the **enemies of Israel** but every one of those nations has something in common, they were **all part of the Ottoman Empire**, every one that is mentioned here in Psalm 83. And like I said, who was not part of the Ottoman Empire was Egypt who was not mentioned because we just mention that Egypt is going to get destroyed. You already see it coming. There is going to be a war. Egypt is not a player in this war. But we see this will be the **start of the Caliphate**, this will be the start of the resurrection and they don't even care if there is 1 Caliphate. They don't mind if they put a Caliphate in every area because you have Sunni and Shiite, you have Wahabi, you have all

different types of Muslim sects. And matter of fact, in Syria today, one of the reasons why they can't arm the rebels is they don't know which rebels is what. You have maybe 40,000, 50,000 **rebels from 100 different factions** and many of them are tribal, the same in Afghanistan. So there could be maybe 500, 1,000 people fighting and it's all tribal; they are trying to hold on to their tribal things.

So here though, we see in Psalm 83, this war that hasn't happened yet, that is **probably the coming war ... very soon** ... where is it coming from? It's coming from the **resurgence of the Ottoman Empire**. Now interestingly enough, a couple of years ago they would have laughed at me, right? Look at Turkey is secular. How on earth can they ever come up, Turkey has been the friend of Israel since 1948. Lots change in a couple of years, right? Where **the leader of Turkey is a Muslim**, they actually had to change their law to allow him to come in as President. They took over the Congress and now the **Muslims have taken over the whole government in Turkey**.

And he openly comes out, he says the Holocaust didn't exist. He comes out and matter of fact, he recently did something that is just against the rule book in any person's country ... every country uses intelligence together and you guard that because if you share intelligence you're going to ruin your relationship and maybe even hurt in world ways. Well about a week ago, **Turkey actually released the names of 10 Mossad members that were in Arab countries**. You remember the country it was? In Iran. And he released the names of these guys and he is hurting his own security too because right now Turkey and Iran are not allies.

They are fighting each other. In the end, Turkey will probably come in with them. The King of the North and the King of the South sit down and have a meeting and they make peace. So they are all going to make peace as long as they are fighting Israel but like the Bible says in Daniel 11, there is no real peace, they are all just strategically going around. The first thing they have got to do is get rid of Israel. So **Turkey is certainly not their ally**, at least not now. And that is what they are looking to do, and they openly said it. Erdogan openly said they are looking to bring back a Caliphate, they are looking to bring back Islamic rule.

Oba 1:10 *Shame shall cover you from the violence ... again that's Hamas ... against your brother Jacob, and you shall be cut off forever ...* And again Turkey is one of the strongest supporters of Hamas ...

Oba 1:11-14 *On the day of your standing on the other side, on the day that the strangers took his force captive, and **foreigners entered his gates**... Talking about the foreigners coming into Israel ... and cast lots for Jerusalem, even you were like one of them. But you should not have looked on the day of **your brother**, on the day of his alienation; nor should you have rejoiced over the sons of Judah in the day of their destruction; nor should you have enlarged your mouth in the day of distress. You should **not have entered into My people's gate** on the day of his calamity; also you should not have looked on his evil on the day of his calamity, nor should you have sent out against his force in the day of his calamity. Nor should you have stood on the crossways to **cut off those** of him who escaped, nor should you have shut up his survivors in the day of distress ...* And there will be probably, a lot of people trying to get to Turkey. You know, Turkey up till recently was the number 1 vacation destination of all Israelis. But it's saying, when this happens Turkey is going to be there at that border, supporting the Arabs and they will not give refuge to the people.

Oba 1:15 *For the **day of YAHWEH is near on all the nations** ... This is not ancient, this is our time ... As you have done, it shall be done to you; your reward shall return on your head! ...* At the same rate, they are going to get their punishment.

You clearly see here, Israel has a cleansing that is coming. Benjamin and Ramone can tell you that istabbu to talk about here. People just want to think that they can run around with their

homosexual parades and abortions every day and all the other things and no damage is ever going to come. It's just not true and Israel is going to get punished. **They will never get taken off the land again**; we know that, it says it in Amos 9. But there will be, Zachariah 8, there will be a chastisement ... 2/3rd will perish, 1/3rd will go through the fire and a remnant will remain. And the people aren't prepared. They need to be preparing but are not. The last one is Iran. Remember the head of gold was Babylon and the silver was ...

Dan 5:26-28 *This is the meaning of the thing: A MINA Eloha has numbered your kingdom and finished it ... Talking to **Babylon** ... A SHEKEL: You are weighed in the scales and found lacking. HALF MINAS: Your kingdom is divided and given to the **Medes and Persians** ...* Jeremiah 51:6-11 says the same thing.

So when Babylon falls as the world leader, what's going to happen? The Medes and the Persians, we know who the Persians are. Up until 1926, Iran was still called Persia and the Medes ... if you look up to the Black Sea where Russia, Ukraine, all those areas of the former Soviet Union. So we clearly see that it is going to be **Russia and Iran that are going to be the ones overtaking America**. And like I said a couple of years ago, maybe people could see Iran, right? Because Iran has been going on for 30 years but people said to me, "But Don this doesn't make sense. **Russia is part of the World Order allied with America. Why would Russia want to cut off their own arm by taking down America?**" And yet we just about came to that 2 months ago. **Remember 'Putin must go!' Remember those words from Hillary Clinton.**

Now this New World Disorder and I call it the New World Disorder because many people when they understand this New World Order, they think these guys are so smart and so afraid of it but if they were that smart, they would have done this back in 1948. They waited 67 years and the problem is, they can't bring a New World Order because they are evil, because they don't know how to do it, because **every time they make a parameter** ... and sometimes you may hear rumors, this is going to happen on this date and it doesn't happen, or the fall of the dollar. And it's not that the rumor might not have been true, but **the plan changed**. The plan changed because they want to make sure they can control out of the chaos. And that's what's going to happen now.

Now, **when Russia and America go to war it's not part of the plan**. This will be the very first thing in 67 years that was **not part of this world global plan**. And it already started. Let me tell you something, World War III has already started 'cause wars don't just start. You just don't get America and Russia coming together like it was in the olden days where you rush at each other with a sword, chopping off each other's heads. It's not Braveheart, that's not the way it works. What you do, is you **start covert wars first** which they have been doing. You start assassinating people in high positions, not necessarily generals and this kind of thing. You assassinate nuclear people that can ... scientists ... people that have the technology to help them. So that is where you start your covert war. You send spies in, you get your information because you want to make sure when you do go to war you want to know what you are up against. Then from there you go to covert war meaning you use other people to fight for you.

And clearly we see, **Russia not only do they have Syria and Iran and Lebanon** there, they have actually **signed a military pact with them**. And when this went on in August where America said, "We are going in", it had nothing to do with gassing people or anything else. That was non-sense; it had to do with oil, it had to do with money and it had to do with power. And number 1, they want the oil north of Syria; **America wants to control it**. And number 2, **they want to break through Syria so that they can go over to China and into Russia**. They know it's going to come, **they know there can only be one leader in the New World Order**. And the problem is, who is that leader going to be? So they use covertly, in the same way, terrorism.

You know they build this big thing after 9-11, "There's 1,000's of terrorists. They're all there. Ooh, ooh," and everybody gets scared. What's the only result we saw out of it? Legislation that hurt every American person and took all their freedoms away; where now they find out every phone call, every message ... Hi NSA! You know they are watching, they are controlling everything. **Where are the terrorists?** They are hiding under beds for the last 12 years, they must be getting pretty old now, right? It's non-sense. The terrorists are created ... like I said, Osama bin Laden worked for the American government as an operative. And **they used these people** because these people are mostly tribal, they are looking for money, they are looking for guns, they are looking for power in their local positions. So they will use them.

Russia has the same thing, **Russia uses Hezbollah; America will use Al Qaeda and Muslim Brotherhood.** Al Qaeda is a mixture, you have Al Qaeda on both sides because Al Qaeda is more a philosophy than a group. There is no such group as Al Qaeda. Hezbollah is a real group, it's a real army. Al Qaeda is a philosophy, there is probably 100 different types of Al Qaeda; Al Qaeda in Yemen, Al Qaeda in ... Some of them are just independent, they are not controlled by anybody and they are just radical crazy nuts but **many are controlled either by America and Russia one way or another.**

So now, when you from fighting through proxy war and now it is coming to a head because America is saying, "No, we've waited too long. We have to take down Assad. It's time to go in there. This plan isn't going." And Russia came in and said, "Okay, make my day!" that's basically what Putin said.

I had somebody tell me, "I was watching it on the Internet. It's almost like Putin is the bully in class. You know, you see all these pictures of him with no shirt on, riding a horse." The bully, what does he like to do? Bullies like to beat up on weak innocent people and it makes them feel good. And he said, "Obama's like the nerd, with the big glasses sitting there and he enjoys getting beat up! He doesn't do anything. He just allows him to beat him up. And Putin, who is the KGB, he just getting such a laugh of all this." And believe me, if you are coming from America and I am telling, anyone here who is not from America they know, if you look in the news, **America is the laughing stalk**, absolutely laughing stalk to the world. **They have lost all credibility** and it's not about a personality. Why it is scary is, when you are perceived as the strong leader and ... "If you come near me you are going to get whacked!" and you lose that, you're in trouble.

Because the window of opportunity to take down that leader is not that big and now you give your enemies to start thinking, *Now's the time. Now's the time.* And that is what happened. Putin came to Obama and said, "Here's my line. You come and" ... this is news; RT, Russia Today, the Press TV, all of them. This isn't something that is secret information. Putin put the red line in the sand. They also didn't tell you was, **China had nuclear submarines coming there.** China has never been involved in this ... because **China signed a military pact with Russia, with Iran and with Syria.** And that's why even Assad ... and again, I am not for Assad. He's an evil person like everybody else but he is not a Hitler. He's a dentist from the U K, c'mon. Listen to him speak but they are making him into this. Why? So they can come in and do what they got to do. And yet Russia don't care about Assad and America don't care about Assad. What they care about now is Syria because **Syria is the gateway to get over and take down Iran and the next step is coming into China and into Russia.**

So, it's coming but it's coming sooner than later because **Russia realizes we are not going to wait until you are on our doorstep to do this and it's the same as China.** China has already **started to switching over from the dollar**, the petro dollar. They are already dealing with Iran and many other countries and as soon as the petro dollar falls, there goes America. **The dollar goes and there goes America**, it's that simple. So we are at that point and like I said, if Obama didn't blink, World War III would be upon us because they know it. These world leaders

know it, they know we are at an impasse and they know our ideology is too different. There is no way we could work together toward this One World Government.

Now here's the other scary part, when you look at Russia and you look at their relationship to Israel. Israel did something strategically that they thought was a really smart move back in the 1990's. They started bringing Russians from the Russian Provinces back to Israel. Now, some were Jews and some were not; they knew that but what they were really looking for was 2 things. They were looking to build their numbers against Palestinian numbers so that they would have a stronger majority. They were looking for good soldiers, the Russians were good soldiers. And they were looking, even more importantly, to build their relationship with Russia. Because now when you **have a million Russians that are living here now as Israeli citizens**, that's going to sway the country what side they are on. Before this, Russia wasn't an ally of Israel, whatsoever, but that changed or at least it looked like it. The problem is, the **face of the bear never really changes**. The bear may put a smile on but he is still a bear with heavy teeth.

And now **Russia clearly to Israel, if you attack Syria, we will attack you. Israel attacked Syria 3 times** and you may think there's no repercussions but right after that happened, they announced it on Syrian TV, they announced it on Russian TV. They said, "**Israel has started World War III**". It's here. It's started already. Now, they will pick the time of their choosing when to retaliate but believe me when I say they have to retaliate. If they let Israel go up there and bomb them 3 times with no retaliation, we are back to Putin and Obama. We're back to the bully beating up the other guy. They cannot let that happen. And that is why **Russia now is at war with Israel**. And when this happened, Prime Minister Netanyahu went to Russia right after that happened and he got scolded down by Putin like you wouldn't believe.

Russia is also for the first time in whatever it is, 30 ... 40 ... 50 years, went to Egypt. Egypt is having problems because Obama's Muslim Brotherhood, Egypt is taking back over and the Muslim Brotherhood is condemned there, outlawed there again. What happens? Russia pulls up the vacuum. So Putin has been working this pretty smart to this point. Now he will come in, bring up the ally to Russia. Now America says they will back off money so Audi Arabia says, "We will give you 3 times the amount."

So all the positioning is happening now. And like I said, we wouldn't even be talking about this right now if America didn't back off. You probably wouldn't be here; it wouldn't have been able to happen. **Why did America back off?** I'll tell you. For one reason, because **5 of the top generals in the U S Army** came to President Obama and they said, "If you send us to Syria as a cover for Al Qaeda, we will **start impeachment** and we will have you arrested. Now, in the meantime, take a look. This is fact; 7 of the top generals in the United States Army in the past 6 months have been either retired, fired or off leave. So now, he knows you're limited how you can do it but he's preparing it. He's preparing it so it's going to be the **generals that aren't with us, we are going to get rid of**. Like I said, not just Obama, under Bush they did the same thing. Matter of fact, it was under Bush in 2003 ... some of you may have seen this from Wesley Clark who was the head of the joint military with the U N. What happened with him? They told him, they came in and one of the top generals told him, "You know we are going to war with Iraq." He said, "Why?" He said, "That's the plan. Not only that, **within 5 years we are going to take over Syria, Lebanon, Iran**" ... and I forget the other 2 nations. And he said, "What's going on here?" Then he said to the guy, "Is this classified?" "Yes." "Don't tell me anymore. I don't want to hear it." And this is, again, on the Internet, you can see it yourself from his own mouth, not just words.

So this is something that was strategically planned as the Oslo fell apart and America figured we'd get above it before it ended so they were leading these other nations into thinking we are going back to Oslo. **There is no Oslo process**; there is no process. And all they are trying to do is, they are trying to weaken Israel into giving up enough concessions and that is why ... remember when President Obama came to Israel ... remember when President Obama first

became President, where was the first place he went to? Egypt, right? Who did he go to? The youth, the students; he talked to them. He tried to rile them up and he was **preparing them for the Arab Spring** which happened 2 years later which **America was funding that** ... 6 to 9 months. You talk about covert war, right? That's the way they are doing it. They give the money, they bring in the leaders of these opposition groups, they train them and then they send it out and then, "Oooh, there was a video and this happened!" No, **it's all planned before-hand**. Now, Obama gets re-elected, where's the first place he comes to? Israel, does he speak at the Knesset where he was invited? No, where does he go? Goes to the university and comes to the students. He tells them, "You **should demand peace** from your leaders. **You need to rise-up!** Unless there is a rising-up you'll never get what you want out of life."

So this is where we are and I firmly believe ... here is the last piece of the puzzle. The last piece of the puzzle is that Israel is in a very very serious situation because **Israel, from the time that they became a nation, relied on America**. In the **Yom Kippur War**, unless America came over, they would have been in big trouble. Golda Meir came directly to Henry Kissinger at the time. Henry Kissinger as you know is Jewish; he was the Secretary of State. And she said, "Mr. Kissinger, we're in trouble. We need help." And he refused her and she said to him, "Mr. Kissinger, you're Jewish. You have to help us." And he said, "Madam Prime Minister, first of all, I am an American citizen; second of all, I am Secretary of State; and third of all, I am Jewish." And she said, "But remember, in Hebrew, we write right to left." That's a true story. But he didn't help. Then she called up in the middle of the night President Nixon and President Nixon says when he was a little child, his mother told him, "Someday, Richard, you are going to be in a position to help the Jewish people. When that day happens, don't fail them." And he remembered that when she called. The greatest airlift since World War II that they brought everything over and Israel won the war. So **Israel knew they had a friend** ... you get the T-shirts all the time; 'Israel we are behind you' and the joke Israel says 'We're behind you' ... but there was an alliance that was built on the Torah, the same way as America, when they were writing the Constitution, they had the Bible out there. It was built on Judaeo-Christian principles; it was built on belief of one Elohim, Yahweh; it was built on all these things. And yet all that has changed in America and it's changed over here.

So Israel wanted to attack Iran several years ago. The plan was all in place and it would have went because what would have happened ... think about it. **If Israel attacked Iran before the Arab Spring started, Turkey is an ally**, no problem from them, right? **Egypt is your ally** with Mubarak, no problem from him. **Jordan is still neutral** and believe me ... and we didn't get into Jordan but King Abdullah is scared to death because 70% of those people are Muslim Brotherhood and he is waiting to hear, "Abdullah must go." And he has no help so he's scared to death he will be in exile once they bring it there ... But when you are looking at it from that standpoint, the **Hezbollah war was just over**; they could have went into Iran, they **could have got rid of everything at that point**, 5, 6 years ago. And sure Iran would have sent some missiles, you deal with it and then it would have been over, at least for now. They would probably be still 10 years away. **America told them not to do it**.

President **Obama assured Netanyahu** that "We are with you, that we would never let Iran get a bomb, just let us work on it. Let's work first with Syria. Let's do this. Let's get rid of your enemies, then we will do this." They dragged him on, they dragged him on, they dragged him on; now it's to a point they know that by Passover, Iran will be past that threshold. **If they don't do something by Passover, then you live with an Iran with a bomb**. Now I always thought ... I'm just thinking on the cataclysmic part; *hey, Iran gets a bomb, they bomb you, that's the end of the country*.

But I talked with someone in the government who is very very high up in the foreign ministry and he told me, "Don, it's way more than that." He said, "**Even if Iran never uses the bomb**, the fact that they would have it, our nation would be held captive. Number 1, what it would do is, it would **kill our tourism**. What are you going to do? What are you going to promote for tourism?"

Hey, come and get bombed by Iran as they are threatening every day the way Ahmadinejad did!" ... because Ahmadinejad and this guy now, they're the same mold and he'll be gone tomorrow when they get the bomb, another guy like Ahmadinejad threatening every day. So it would **kill their economy** and secondly, it would **kill our aliyah, all our people coming back**. He said they figured out about 1/3rd of the people living in Israel would leave. Can you blame them? If you know you are in this tiny spot and you don't whether today, tomorrow or 6 months we are going to get 'nuked' and we are not going to be alive, for your children's sake. So he said, "There is no way, no matter what anybody said, **there is no way we can allow Iran to get a bomb.**"

Now, you see what just happened at United Nations, right? All this comes about and now Obama is being strong on Syria and Israel is behind him saying, "Wow, finally we are going to see some movement here." And then overnight, he turns. Now they are saying, "Assad isn't really as bad as we thought he was. Okay, we will just let this go on." And the next thing you know **President Obama goes to the United Nations**, he sets this thing up to shake the hand of Rohani and Rohani snubs him. Then all of a sudden Obama's calling him up. They said it's almost like when you got snubbed for your Junior Prom, they were going to shake his hand and now I'm going to call him and "Oooh, he called me!" Come on, what are we dealing with here? It's strange and you don't usually see that from the leader of the free world.

But now the whole thing has changed, why? Because Komani, the overall religious leader there, he called a fatwa and under a fatwa, they couldn't get a bomb, they are not allowed to. But you forgot, **they have to lie to their enemy**. They forgot about that part. So now all of a sudden, American has changed and they've come and they told Israel, "**Look we can live with Iran with a bomb but we will make sure they never attack you.**" That's what it has come to. America is not going to intervene and now Israel is in a very tough situation because while they are negotiating ... and that's all Iran wants to do, is **drag it along another 6-8 months** because then it doesn't what happens, they have their bomb and nobody can stop them.

And they see that when you look as Saddam Hussein, he went; when you look at Kaddafi, he went; because they didn't have a bomb. You don't see the guy in North Korea going anywhere. No matter what they say and what rhetoric they say, don't make a difference because he has a bomb. And you go in there and you have a big problem because we know a nuclear bomb can kill a lot of people. Iran knows this. **They know, not only will a nuclear bomb ensure they can keep their Islamic revolution going on but it will also ensure that they can destroy Israel and it will ensure that they will be the leader of this new Middle East World Order which they started about 5 years ago.**

So, it's a pretty big decision. From my sources, they say **Israel is definitely going to do something**. It's going to be sometime between now and Passover. They have to. But again, the pressure that will come from America ... I don't even know if they will tell America ... but about 2 weeks ago, they practiced right over here, they were practicing for long range, going for this kind of thing. So that's why I say, **once that happens and once Israel attacks Iran, there is no more covert war, there is no more proxy war. Russia will be involved, America will be involved; we are at the gates of World War III.**

And we know the results from the Bible, Babylon is going to fall. America is not going to win this war. We know that radical Islam is going to rise up. We know that the Beast Power is going to come here for 42 months and we know all these things are going to happen. But again, we read the end of the book, we know we win but it's going to be a hard point to this and we are very very close to this threshold. **Now again, when you are dealing with this, anything can change because they do have a limited amount of power to manipulate or hold off, like what just happened in August but we are close.**

One way or another, between the economy collapsing in the U S which will bring a whole New Order in itself, and that could be one of their plans, is doing through that; through World War III or whatever; but we are at a breaking point. Because what they were working on for the last 40-50 years, those parameters are not here anymore. So they are going to this new plan and they do have the new parameters to do the new plan. **That's the plan now that Russia and America are at a point where, one of them only, can lead it; but they both can't lead it. And that's where we are at.**

So, I'll open up for a few questions you might have.

Q. What does Russia have to do with this, with Iran getting the bomb? Don't you think it would be to their advantage to keep it from the world?

A. Don: You have to realize, you only have 2 sides here, just like you have good and evil, you have Satan and you have Yahweh; there's only 2 spirits, right? So when America is the leader in the world and Russia is its nemesis, it's really you are either for America or for Russia; it's one or the other. So now, wherever America, even if it's something that's good ... let's say the Syria really did bomb/gass the people, let's say Assad really was a Hitler; anyway you look at it, it's not going to be good for Russia if Syria falls into the hands of the Americans because now they are building their premise in the Middle East. And that's the point.

In the beginning they went through it thinking it's going to be a world government. Now they see **America, they want the World Government.** America is going and doing what Hitler did, just in a little bit different way. They want to control the world and they will take down anybody in their path. "You're with us or you're against us" that's what Bush said. So they see that as that; they see it as an existential threat to them and what they believe in. So it really has nothing to do with Iran. They really don't care less about Iran. So on the other end, there is also a lot of money, there is oil that they are getting from Iran, there's pacts they have, they have billions of dollars; so that's the side-step because they are allied. But in the end of the day, if America gets to the Chinese Sea, like they said, by 2020, then they are done because you can't fight the war on your own shores or you are going to have a problem. And that is why **America has a military pact with Taiwan,** little Taiwan, that if China attacks Taiwan, America has to come to their defense because America sees that as an important ally in the region.

So that is what it comes down to, it really comes down to is, they understand they are really close to this world government but whoever blinks and loses, it's not just that you are number 2, it's you are done! If America loses ... like I said, I have talked a lot about Babylon, but Yahweh help us when America falls. Yahweh help us because when Communism gets up there, like we said, then the veil comes off. So then, it's no more democracy, no more nothing. **That's where they just start stamping and destroying all their enemies and that is what we are up against now.** Only Yahweh knows the times but wow, as somebody who watches this and studied it for years, I can tell you something, we have never been closer than what we are now. And I would be shocked if we are sitting here next year and it didn't start yet. I'd be absolutely shocked, and I might be but I don't believe it.

Q. It's interesting that 2 days ago in the morning news, in Israeli news they said that there is a new assessment that is credible from America, that Iran is actually 4-6 weeks away from the bomb. It just came 2 days ago, in light of what you are saying. Don asks, "Can you also share what you were saying about the earthquakes?"

A. Benjamin: Yeah, on the same line I would like to say that it is very interesting that our Prime Minister was speaking about 3-4 days ago, he had a **7 hour discussion with John Kerry in Rome at the American Embassy ... the Pope was also there,** he was involved in the meeting ... it was so very very long discussion so they must have talked a lot about the peace treaty. Then the interesting thing is the earthquakes. We've had a few here maybe there; we've

had one once a year or maybe every other year but **in the last week, we have had 7 earthquakes** according to IGI sources, 5 in Galilee and 1 in Eilat. So it's interesting, it's the same time as they escalated the peace talks. While the conference has been here, the reports have been coming that the peace talks are escalating and escalating and we know that even if they may have failed, they used the words, "The clock is ticking." The biggest was 4.6.

And also Netanyahu has said we will be having earthquake preparedness for the next week because it is so serious, they really believe they will have an earthquake very soon and there was an analysis on TV about Netanyahu talking with Kerry for 7 hours ... that's just not a normal diplomatic kind of thing. So it's very unusual and very scary and symbolic. That means **they have made some deal** and now very revealing ... 7 earthquakes, never before ... 7 hours with Kerry .

Q. You can see the countries how Russia is getting its allies together; Brazil, Russia, India, China and South Africa.

A. Don: Absolutely, as a matter of fact, before a couple of years ago basically you had what started as the G5, G6, G7 and G8 but now you have the **Conference of Unaligned Nations** that's run by Iran, 147 nations. You have BRICKS, you have all of these others because one thing is certain in everybody's mind is, as far as **the dollar as the world currency**, everybody knows it's over. It's just a matter of how they transfer over into that new currency and whether it will be something that is several currencies together maybe with gold or they are just going to create a new currency. But everybody knows that the dollar currency is over.

And that is why if you look at America today, and most people don't understand how the money works ... like if I said, if I was to tell you America is a trillion dollars in debt or a hundred trillion dollars or fifty trillion, it's just a number, it doesn't mean anything. But when you see that their debt at 17 trillion is more than 100% of their GDP which means that close to .50 or .52 of every dollar coming in goes just to interest and that's at 0% rates. And that's why, never in the history of the country ... Why would international bankers be so friendly to you to give you interest free money? Because the minute you raise the interest rate ... you know this on your mortgages, if you have \$100,000 at 10% it's one rate, if it's 15% it almost doubles your price. So if they went they said up to just 4%, America could not even pay the interest and that is why, they producing this money every single month ... because nobody is buying the American bonds any more. And that's why this is unheard of, it is absolutely unheard of, that for 5 straight years not only would interest rates be 0 but the Federal Reserve just keep printing, printing, printing trillions of dollars out of thin air. And if you notice, normally, in a normal cycle what would that do? It would create such inflation that you couldn't imagine. It's not really creating inflation; it is devaluing the dollar, it's down 60% in the last 10 years or so. But it's not doing it because there is no money there. They are putting all this money in there to basically prop up a system that has already fallen and they know it. And even when the Federal Reserve comes out and says, "We might not do as much in 6 months." We see the stock market go way down. But the minute they stop pumping that money, everybody is running for the doors because the money isn't going to the average person. The money is going to the corporations who are buying back their own stock, so the stock market is going up and up and up and when there is greed involved, people don't want to lose that last dollar. So they will keep going as long as the money is pumped but you watch, once that press gets stopped, you are going to see a crash in the stock market and the American economy like you have never seen before. And everyone's going to be wondering what happened and then they will give all these non-sense answers on it. But the bottom line is, it's debt. They are a debt based society that has broken down and we can figure it out.

If you only earn \$20,000 a year and you had a million dollars in debt and no assets, unless you had a sugar daddy that died somewhere and leaves you a million bucks, you ain't never coming out of that debt. You couldn't earn enough to come out of that debt. And America is at that point, they can't pay their debt off. They won't be able to and everybody is running for the hills already

and it's scary. If you look at real estate which in the last 20 years how much the U K, they are the number 1 holders of real estate in America, how much does Saudi Arabia? They are like number 3, of real estate holdings. Even now, the U K, the Brits are not buying; nobody is buying real estate there because everybody knows there is something major ... there is a crash that is coming. And it is not apocalyptic people or pastors, I am talking about top economists of the world; they all know it's coming. And like they talk, there is no good way out of it, there is only ... because once it starts falling, what happens.

Q. The one man who had all the information and fled, Snowden, and then now he's in Russia; do you have any insight into his doings or is he anything? What's he doing?

A. Don: Shhh. Do you know how to keep a secret? So do I. To be honest, the only thing I know from Snowden, nothing that anyone else would know from the Internet or whatever, is basically here was a guy. He was just a young guy that saw all these things going on behind the scene, thought of himself as a patriot, a good American, that he is going to expose it. Of course, they smear him, They make him out that he's hurting national security and to be honest, I don't know how it can hurt our national security when the government is spying on its own people that has nothing to do with international things ... Well, you're revealing how they are doing it and that is going to hurt us to our enemies ... well, what about our friends? I know United Nations General Assembly ... Brazil, you heard the lady from Brazil? She gave a scathing rebuke against America. Europe, they want to maybe even bring charges up against America. So that is why I say, it's not just the Russia/America thing. America for many different reasons right now, is really at a low point in international affairs.

So Snowden, I think Russia ... like I said, Putin again is just laughing there because it's just another way he can jab America and give it out. But I am sure there is information because you know the way they are. Probably, when it is all said and done, they will probably kill the guy. But now they are giving him a house, "This is your refuge and isn't this wonderful, we'll give you a chauffeur"... as he gives everything away. And then at the end of the day, I'm sure they will kill him and maybe blame it on somebody else. So, I feel bad because it seems his intentions were honorable with trying to reveal some bad things that are going on.

That's one thing the Internet has brought is whistle blowers, the same as we have heard with Benghazi a long time ago. And I did see the film of it where before Ambassador Stevens was killed, that he had a meeting with the Ambassador for Turkey and they show them in the courtyard shaking hands and the Ambassador from Turkey is leaving ... and it all goes back to 'Fast and Furious'; the guns that were sent out, the same kind of idea. They were smuggling guns that were coming into Libya. Libya were bringing them up by shipment to Turkey and Turkey, they were bringing them down to the rebels; completely against the law because none of it was sanctioned by Congress or anyone else. And from what I understand, the information that I got from my sources said that Ambassador Stevens who was really behind it all, he was the main player. He thought they were going to the secular rebels that were trying to take Assad but when he found out they were going to Al Qaeda and Muslim Brotherhood, he was ready to actually pull the plug and announce it. And that is why didn't they go help him? And if you saw pictures of his body, He was taken care of pretty bad. They took him, the Arabs, they raped him, ah, horrible what happened with him. And finally they gave his body back the next morning and he was already dead but he went through a humiliating and horrible death. And why, when you had more than 12 hours, that's where the questions keep coming up, why? They had bases in Tripoli, they had all that, why didn't they send anybody for help. And even the people that were there, why did they tell them to stand down and not help this guy that's there with 2 or 3 security at the time? Usually these things never come to the forefront, the truth never comes out.

But like I said, at this point we see all the pieces coming together and as Yahshua says, "When you see these things happening, look up. Your salvation is near." But it is not the time to go back fishing, it's the time for repentance, it's the time for focusing, it's the time for fasting and prayer

and it's the time to work. There are a lot of people out there now, and especially when the bottom falls, they are going to be seeking and saying, "Why is this happening?" And we have the answers to give them. We have the answers of hope to bring to the people and we know from Daniel 11, there will be a lot of fruit being born and that is what we have to look forward to. Once this time is over, wow, that's when the real work begins. We start renewing this earth, sending out to the 4 corners going to all those people who suffered, healing their sicknesses. First thing, throw out the GMO's. Everything organic, the way Yahweh really meant it to be. And that's where we are going back to the garden of Eden.
