

Transcription – The Word of YAHWEH_ Part 1

Alrighty, Shabbat Shalom and Shabbat Shalom to those who are watching with us. I'm going to start today, a new series; it's going to be probably three parts altogether and it's called, ***The Word of YAHWEH***. So this is *The Word of YAHWEH, Part 1*.

And when you think about it today the Bible is the most amazing Book ever written; and what would the world be...what would we be if we didn't have that Book. And when you look at history and you look at the technology in the world before the last, maybe fifty years or so, for Yahweh to be able to preserve the Bible for thousands and thousands of years...not parts of the Bible...we don't have a part here or we don't have a little section of a book here...but we have the entire Bible preserved for us; because it really, it's the instruction manual for mankind. It's what tells human beings how to live, tells us how to interact with each other, tells us everything about how to worship Yahweh and it tells us everything about truth.

So without a shadow of a doubt, it is the most amazing Book that's ever been written; and it is the only Book in the world...I mean there's hundreds of millions of books that have been written by human beings for the last thousands of years...but the Bible is the only Book in the world that's written in the first person by Yahweh.

So I want to show proof to this because some people will say they don't believe that. Many people claim the Bible is not true. And considering that this is the only Book in the world...even when you look at things like the Koran and the book of other religions that they have...none of them is written in the first person by Yahweh.

And yet, most people on this planet don't read the Bible. They don't read it. They're not interested in it. And even many Christians don't fully believe it. You talk to people that are supposed to be Christian and they'll look at stories in the Bible...maybe like Balaam and the Donkey...and they won't believe that Yahweh could have made an animal speak.

The UN calls it "hate speech" the times we're living in today. And even the Jesus Seminar that supposed to be supporting the Bible says that only about 16% of Yahshua's words are actually from Him; which is amazing that they would come up with that.

So I want to show in the next few sermons how amazing, how accurate and prophetic that the Bible really is; and that we can prove, without a shadow of a doubt, that **it could have only have been written by Yahweh**. There's no way on earth that a human being could have written the Bible when you look at how it's put together, you look at things that are in there. And we're going to prove that in the next few sermons here and it's put together **completely perfect**.

In many Bibles...I would say, most Bibles...that are in the world today, there are sixty-six Books in the Bible altogether. What they call the Old Testament is the Tanach; it's an acronym for the Torah, the Prophets and the Writings but that's not the way the original Bible was. It's really interesting because they come up with sixty-six Books...six is the number of man, right? But originally the Tanach only had twenty-two Books; that was the amount of books that was in the Tanach. And it wasn't that there were less books, it was that the books were together.

Like the twelve Prophets, minor Prophets...Nahum and Habakkuk...they were all one Book; it was one Book with the twelve Prophets. When you look at 1st and 2nd Samuel, 1st and 2nd Kings, that was all one Book. So it wasn't that there Books that weren't in there, but all together the Books were only twenty-two Books that were

in the Tanach because there's twenty letters in the Hebrew alphabet...I went over this before not that long ago...twenty-two is divine number of Yahweh.

And then it's kind of interesting how we can also see...because sometimes people will say...or the books that were left out of the Bible or should the Bible be different...and we know it's not because the Brit Chadashah, the New Testament parallels the Tanach...and what we see is we see **the Torah is the foundation of doctrine. The Torah is the foundation of knowledge.** The Torah is the first five books of the Tanach; it's called the Torah...Genesis and Exodus, Leviticus, Numbers and Deuteronomy.

And then it's interesting is you parallel that with the Brit Chadashah, with the New Testament, we see the beginning of the New Testament has the four Good News messages of Yahshua and the Book of Acts which tells about that. So we're going to see this...probably next week I'll get more into that...showing the breakdown of the Bible, how the Bible was put together and by far it's amazing that there's way on earth that this Bible could have been put together like that and not been divine.

So we have twenty-two Books of the Tanach...like I said, what's called the Old Testament...and then in the New Testament you have twenty-seven Books. It's interesting because originally the Aramaic Peshitta had also had twenty-two Books and I think it was paralleling; but the interesting part is, even though there's twenty-two letters in the Hebrew alphabet, there's five Hebrew letters that if they come at the end of a word they're called, *sofit*, the letter changes. So technically there's twenty-seven forms of letters and in the end it wound up with twenty-seven Books in the New Testament for that. And when you add them together...the twenty-two Books of the Tanach, the twenty-seven Books of the Brit Chadashah, the New Testament...you come up with a perfect forty-nine number; seven times seven.

So that's why we know there's not extra books that were not put in there. People write me all the time and they want to know why the Book of Enoch is not in the Bible...or *our* Bible they say...because **the Book of Enoch was not inspired by Yahweh; the Book of Enoch is not a biblical book.** So you could read it as whatever you want it as, but there's things in Enoch that contradict the Bible.

And by a matter a fact, **it is not the Book of Enoch. Enoch lived in the first few chapters of Genesis. There was not an alphabet until Mount Sinai;** the very first alphabet was by Yahweh Himself who created the alphabet at Mount Sinai. Because before that, you only had hieroglyphics, right? And how could you...with hieroglyphics Yahweh would have had to break His own Commandment of not having a carved image; because in hieroglyphics there are carved images of animals.

So when Yahweh gave the Torah to Moses and the Tanach, what did He do? He gave him an alphabet. So that's where the alphabet starts. So **there was no alphabet in the time of Enoch and Enoch did not write any kind of book.** And if you look and you study it...and you could it very easily through the internet...you'll find out the Book of Enoch is a second century book; it was not written by Enoch.

Who wrote it? Who knows? Nobody knows...nobody knows who wrote it but it was all kinds of fictitious theories that were going on at that point. Some of them still going on today with demons and everything else; and **it's not a book of scripture;** it's not part of inspired scripture as we see. When you take the twenty-two Books of the Tanach and you take twenty-seven Books of the Brit Chadashah, you come out with a perfect seven times seven; forty-nine Books.

The Bible was written by forty-four different men...can you imagine...**over 1600 years** with no contact with each other; and yet, there's no contradictions...the Bible is perfect. There's sometimes things that look like contradictions. We get all the time, they write in and ask questions and we explain it to them. But there is **no true contradiction** that is in Scripture.

The Good News of Yahshua, same thing, they were written twenty to sixty after Yahshua's death; Matthew, Mark, Luke and John; four different writers that lived in four different part of the world. They did not corroborate with each other. There was no Skype or any of that kind of stuff in that day that they could talk to each other. They're all living in different parts. They all wrote their Books at different times and there's no contradiction whatsoever.

So in the mouth of two or three witnesses, let everything be conserved. We have four corroborating witnesses there that all exact...you know I shouldn't say exactly because they're all telling from their point of view that's inspired by the Holy Spirit...but there's no contradiction there. So it's amazing when we look at it that way. 2nd Timothy...2nd Timothy 3 in verse 16 says:

2nd Timothy 3:16-17 *All Scripture is written by inspiration of the Holy Spirit and is profitable **for doctrine, for reproof, for correction, for instruction in righteousness**, so that the man of YAHWEH may be perfected, and **complete for every good work**.*

So wow, what a great scripture! **All scripture is inspired by the Holy Spirit**. So we know that the Tanach, like I said, the Prophet...the Torah, the Prophets and the Writings...they're inspired in a different way because we see that **Yahweh speaks in the first person in there**; I, Yahweh say this.

We know in the Brit Chadashah, the New Testament, it's not like that. If you look at either the Good News messages that are telling the life of Yahshua, if you look at the epistles of Paul, the epistles of the Apostle Peter; or even the epistles of Jacob...one epistle of Jacob...they're not written the first person of Yahweh, yet, we see that's it's still inspired by the Holy Spirit. So it's a little bit different because there's things that are cultural anomalies that are happening at that time that we're seeing and being explained in there, but it's written very different; even though both are inspired scripture. And they complement each other but it is very different.

But it's there for...like I said, instruction...**the instruction manual of mankind**. Everything you need in life, whether it's how to live...like I said, after you become a Believer and you come out of that water of baptism and you make that commitment, you still have to live whatever amount of years Yahweh blesses you on the earth and you have to know what food to eat, what kind of clothes to wear, what kind of work to do, how to deal with people, with family, whatever... in the Bible tells absolutely everything from that. So, **All Scripture was written inspired by the Holy Spirit for doctrine, for reproof, for correction, and to instruct in righteousness**.

Up until the Twentieth Century...and I'd say 1947, it was the night before they were voting on Israel to become a nation...was when the Dead Sea Scrolls come out...tell me that's a coincidence, right? They're there for two thousand years and they come out the very night before Israel's going to become a nation. Now before that, before the Dead Sea Scrolls, the oldest scroll...Bible Scroll...that we had was only a thousand years old. So when you're looking at things...and we'll get into it later...say Isaiah's prophecy, Isaiah prophesied of King Cyrus who wasn't even born for two hundred years later. And you know what people said? They said, "It had to be added...it had to be added...that can't be true."

How on earth could he know that a king is going to be born in two hundred years and even know his name is Cyrus and know what he's going to do? So it has to be added. Instead of just saying, no; **it's divinely inspired by Yahweh because Yahweh knows the beginning from the end**. They don't want to believe that so they say it. So this was a debate for many, many, many hundreds of years because we only had a Bible that was as old as a thousand years AD.

Then when the Dead Sea Scrolls come, amazingly enough, the Dead Sea Scrolls go back to around to 200 BC all the way up to 70 AD. So now, you have scrolls that are a thousand years older than the Masoretic text that

they had before; and you want to know something? In the Dead Sea Scrolls only a third of the scrolls were Bible scrolls, but every single Bible scroll was there except for the Book of Esther. That's the only Book that they didn't find. And maybe they had it...who knows? But they just did not find the scroll of Esther.

But every other Book was there even including the Book of Isaiah; the whole Book, a sixty-six foot scroll of the whole Book of Isaiah was there. And you want to know something? When they compared the scrolls from 1 BC...100 BC or less to 1000 AD...**95% were exactly the same**, word for word.

Now where were the differences? It wasn't even in words; it wasn't even that something was omitted; it was in the way that the letters were made. Sometimes letters were elongated, sometimes they were widened. There's theories on why that was...I'm not going to get into that now...but as far as context, **it was 99% the same**. So can you imagine, in a time where you didn't have the internet...you didn't have all of these different things... that over the amount of more than a thousand years just by scribes writing, and writing the next, and writing the next, it was basically 98-99% the same. And in those, maybe someday we'll do a study on just those few different words that are different; and why they might have been different; but everything, everything in the context was the same.

So again, what does that prove? It proves again that the Bible...**it's a miracle that that Bible can be preserved the way it was**. It's an absolute miracle that Yahweh could have preserved...like I said, not a little piece...not a little piece of a scroll...you know there's Dead Sea Scrolls that they find...thousands of them that are just a piece of a scroll. There's just maybe a phrase or letter and they're trying to figure out what it is.

We have the whole Bible complete from Genesis to Revelation. We don't have to do any guessing; we know every single thing; and what a blessing from Yahweh...what a miracle from Yahweh! And we need to appreciate it! Because before the printing press, nobody had a Bible in their hand, right? The only time there was a Bible, is in the synagogue and there were as we look in the history of the underground Congregation we see there were sometimes pieces of the Bible that were copied or written and people just didn't have the luxury of having the whole Bible to have in their house.

And now today, wow, we can have ten Bibles, twelve Bibles, fifteen different Bibles and Concordances and Lexicons and all different study aids, why? Because in **Daniel 12:4**, because *in the end time knowledge will be increased*...another proof. Another proof that the Bible has to be true; which we'll get into also on fulfilled prophecy.

So if people are honest with themselves...and I'm talking about now, historians, right...historians if they're honest with themselves...when you look at historical writings, there are not a ton of historical writings that are there, right? And when you look at somebody famous...say like someone like Plato or Aristotle, right...that these are philosophers...there are seven different writings that they have of Plato throughout history. Aristotle is only five, right...and there amazed at that because they're above the top...there's many writings, they have one or two and if they can even have two, they say, "Wow, we have two. This proves it that this guy really said this"...because it's corroborated by a second witness.

In the New Testament alone, we have fourteen thousand manuscripts...more than fourteen thousand...more than that. But fourteen thousand, fifteen thousand manuscripts all saying the same thing, not contradicting each other.

And literally, who knows I haven't even seen when you take the whole Tanach how many tens of thousands, if not hundreds of thousands, of manuscripts of pieces that they have...all saying the same thing...all corroborating the same story of showing that the Bible there's no reason why we would doubt the Bible. There's nothing that's missing there. Everything that Yahweh gave us is there. It's written in every language;

it's translated. We have the original manuscripts from the Hebrew; from the Aramaic that we could look at, that we can study. And Yahweh did this purposely because it's important; because doctrine is important as we'll see.

So the Bible has all these different manuscripts that have been found through the years...ancient manuscripts. Nelson Glueck who was...used to be the President of Hebrew University and a leading archeologist in Israel many years ago. He said they have never, ever found one find...archeological find...that contradicted the Bible. But they have many finds that confirm the Bible.

When we look at Tyre and Nineveh and Babylon and the ruins that have been found there, it's just as it states in the Bible. Even over forty kings are mentioned from 2000 BC to 40 AD, all are historically accurate in the Bible and even the names are spelled correct; which is not that easy when you're dealing with different languages and whatnot.

And even people, for years they said, like people like the Amalekites, "Oh, that's just a made-up people in the Bible. There's no such people!" Until all of a sudden they find a piece of evidence showing, "Oh yeah, there really were Amalekites." "I guess the Bible was correct." That's what they always say. But **there's never been a find ever that would prove the Bible was incorrect.** It just hasn't happened. There was even a twenty-six year old Book of Numbers found in a Jewish cave that was word for word correct again...word for word correct.

So as we're looking this, the evidence becomes overwhelmingly; and I'm talking about physical evidence now, right? I'm talking about evidence that if you're looking at...not from a spiritual aspect, but you're an archeologist, you're historian, whatever...that you could look at this and you could see without a shadow of a doubt **there's no reason to believe the accuracy of it.** If you don't want to believe the doctrine and you don't want to follow it, that's a different story. But **the accuracy of the Bible, there's clearly, overwhelming evidence that the Bible we have is correct.**

Now let me go into for a little bit, creation vs. evil-ution. Romans 1 in verse 18, let's start there...Romans 1 in verse 18...creation vs. evil-ution. And I probably could have went over a whole sermon...I probably could do five sermons just on this subject when we look at it; but maybe in the future I will. But for now I'm just going to over the highlights, some things on why, without a shadow of a doubt, **we could easily disprove evil-ution;** that it's something that man only wants to believe because they don't want to believe in Yahweh as Creator. But, if they could prove evil-ution then then can disprove the Bible.

And it's just like today; it's the same thing as you see all the stuff going on around the world and in Babylon, and the riots. Very rarely does what happening, or what you're seeing in the news have anything to do with the real reality of what's happening on the ground. Everything is manipulated, everything is twisted and everything is used for what? It's used for the overwhelming **agenda** of bringing the world away from Yahweh, away from belief in the Bible and toward chaos of the devil. But in Romans 1 verse 18, it says:

Romans 1:18-25 *For the wrath of Elohim from heaven is revealed against all the iniquity and wickedness of men, who unjustly suppress the truth because the thing known of Elohim is clearly known within them, for YAHWEH revealed it to them...how did He reveal it to them? We'll see in the next verse...For, from the foundations of the world, the invisible things of Elohim are clearly seen and understood, in the things He created, even His eternal power and divinity; so that they might be without excuse;...so, just logic can tell you if you have a creation, you need a Creator. When you look at we don't have one flower, we have thousands and thousands of beautiful flowers; and different colors of flowers. And birds, it's amazing when you look, there's not a bird; there's a species of birds and there's hundreds if not thousands of birds and with all different beautiful colors and feathers and what they do. And it's just amazing that when you see all this and there's*

actually when you look in creation there's different species, and especially with birds, that are totally against the evolution theory; because the things they do is not just for survival and these different things. But we see it. Since you have the creation then logic will tell you, there's a Creator...duh, you know, c'mon... *because they knew YAHWEH, and they did not glorify Him and give thanks to Him as Elohim, but they became vain in their imaginations, and their unwise heart was darkened...right? Just like we see today...Professing to be wise, they became foolish and they changed the glory of the incorruptible Elohim into a likeness of an image of a corruptible man, and of birds, and four-footed animals, and creeping things...right? Man evolved from whatever...Because of this, Elohim gave them up to filthy lusts of their hearts, and their bodies to be dishonored among themselves, who changed the truth of Elohim into the lie, and worshiped and served the created thing more than the Creator, who is blessed forever. Amen.*

And it's so true...it's so true. And there you have evolution, because they took the creation of Yahweh which is the proof of His creation itself and they twisted and they turned it and like I said, how could you have a creation without a Creator? And anybody that works in anything where you're creating things...if you work in creative design, if you work as an architect how can you have a building...a building just doesn't just go up, right? It just doesn't go up. You have to have a plan first because if everything isn't exactly right then how do you put the doors on if they're not level? How do you build the walls if the ground isn't level and the walls aren't built level? **So you have to have an architectural plan when you're building beforehand.** That's the first thing you have to do. You have to see if it all fits together. And how on earth...you couldn't just show up and start throwing wood in. And even more than throwing wood in, taking all your wood, and your nails, and all your spackle, and your sheet rock, and your tiles on the roof and putting it all together and then putting a bomb there and blowing it up and think it's all going to come down as a house! Who on earth would believe that? Not even a two year old can believe that! It is utterly ridiculous to think you could do that; that you could just buy all the stuff, stick it together, blow it up and it all comes down in the order it should.

But somehow that's what the evolution wants us to believe. We're supposed to believe that life came from a big explosion. But we've lived in Israel for twenty years; we've seen many suicide bombs and different things there. And I could tell you: explosions bring chaos. They don't bring order. And where are supposed to believe that this big explosion came from? What exploded? If there was nothing there what is exploding, right?

It is impossible that we came from nothing; it's impossibility, right? Where did the first...the first cell come from...the first cell of life? If you even look at the word *nothing*, what is the word *nothing*? It's **no thing**. When there's nothing, there's **no thing**. So **a universe cannot come from no thing**; something had to exist if we're existing. It's that simple.

If you look at the second law of thermodynamics, it states that the amount of usable energy in a closed system...like in the case of the universe...it's decreasing. So in other words, the amount of usable energy is dying out just like the batteries in a flash light. In a closed system like the universe, is in fact, running out of energy then the universe can't be eternal because a finite amount of energy could never have brought the universe through an eternity of time...okay...so second law of thermodynamics would prove that; there had to be a starting point.

When you look at the universe in creation everything is put together in a direct intricate pattern; which needs a creator, an organizer for that. It couldn't have been by chance as **something can't come out of nothing**. It's that simple.

Mankind has never created even one blade of grass...one blade of grass. Can you imagine? I've seen a lot of plastic grass. You see a lot of stuff that may look like...its carpet that supposed to look like grass. But can you imagine with all the technology that human beings have they can't create one blade of grass. They can take

something that Yahweh has already created, like a tree, and they can make a table out of it; or they can take stones and cut them and make a house out of it but **they can't create something on their own**. It's that simple.

When you look at the human body; and we could probably do a whole sermon just on the human body in creation **proving that it's impossible that the human body could come into form by itself**. The human body has roughly thirty to forty trillion cells in the body...and it's debated some because whether bacteria is a cell or whatever. But around thirty to forty trillion cells are in the human body. **Each cell has sixty thousand living proteins...each cell...in a hundred different configurations. Every single thing needs to be exact in our body for our body functions to work**; our liver, our kidney, whatever.

For this to happen by chance...think about that...**thirty to forty trillion cells, every cell has sixty thousand proteins in a hundred different configurations**...and for all that to come together by chance you're looking **one million four hundred thousand by the four hundred and seventy-eight thousandth power**, right? So it's a number that you don't even have. That's why you have to have powers because we don't have numbers that go out that far. But that's the **chance** that, that could have happened by chance.

Information in **one human cell**...just one human cell, the information that's in there...**is equivalent to fifty thousand volumes of encyclopedias**...one cell! So when you think about this, and it's also when you're looking at law of odds and probability; I always say this, that every time when you're configuring something, right, and especially with mathematics; if you get one thing wrong you can keep configuring for the next hundred years and every other configuration could have been correct, but if you got this one wrong here, everything else is incorrect.

So when you're thinking about that, thirty to forty trillion cells in your body, every cell having sixty thousand living protons and a hundred different configurations, **for all that to come together perfectly with no mistake**, there's got to be design. There has to be some kind of design by a Creator. People...you can decide, there's people that...I've went over this kind of things with atheists, and I say, "I'm not trying to get you, to force you into believing what I believe. All I want you to do is to **be honest** that this couldn't have come from nothing. And then if you want to believe that we were created by aliens; or we were created by Godzilla; whatever you want to believe, that's your business! But **at the end of the day, you can't say we came from nothing!** It is illogical, stupid and impossible. **It's literally impossible!**"

So this where there's got to be a starting point. And yet, in schools throughout Babylon and around the world, they will teach this lie. They will teach the lie of evolution. Even though now through DNA, it's proved that it's impossible; because with DNA evidence...DNA proves you cannot come up, when you cross DNA you come up with a mutant species. You don't come up with a higher species.

So when you're looking at this theory of the battle of the fittest, right, that that the weaker ones die and then the DNA crosses and you come up with a higher species that continue. It's just, it's just not scientific...it's not scientific. **There is absolutely zero proof of cross DNA in species** ever...you don't see it. So you have DNA cross, maybe within species, right? You have the K line species, you have the whatever...you have cats, dogs, monkeys, everything...and maybe **within its own kind**, you could have a certain amount of crossing of DNA...**but not to switch**. You don't have in the monkey kind, jumping into the human kind...you know the missing link like...they so to say. There is no missing link. It's never happened in any specie. Never mind just monkeys to humans; no specie has ever jumped that.

And this is something where it's really interesting; because DNA, we only know this recently, DNA is not something that we've known for a hundreds or thousands of years, but they downplay it because within DNA itself, just understanding and teaching about DNA you could prove that evolution is impossible.

Also science tells us that every fourteen hundred years the electromagnetic field loses about half its strength. In recent years, they're questioning that a little bit, but it's still on line. If the world was even twenty thousand years old, the strength of it would have been more than a star; nobody could have lived on it. So to say caveman lived millions of years ago, it's impossible.

Just looking at the electromagnetic field, it's losing its strength every fourteen hundred years. Like I said, if it was even twenty thousand years old, no human could have lived on it that long ago. And if it was more than that anyway, today there would be no strength; the electromagnetic field. You wouldn't even have it. So what's interesting is, if you're looking at a six thousand year creation that fits in perfectly with the electromagnetic field losing its strength. And I say it's almost like Yahweh being the great "Clock Master"; it's like winding your watch...today, I guess nobody has to wind their watch any more unless you have an old ancient watch. But in olden days, that's what you had to do. You had to wind your watch every day; and that's what the electromagnetic field is doing. It's losing its power every so many years and now it's to the point that it needs to be re-wound by the great Master.

So Yahweh did set a plan there. He tells us in Scripture it's a seven thousand year plan; six thousand years for man to go his way, make his own governments, religions, schools, whatever. And then we're getting very close to it in just the next few years. I'm not even going to say the next few centuries or whatever, but probably within a decade or possibly a tiny bit more than that. But the seven thousand year will come and Yahshua will come to earth and will start the millennial rule and you won't even need sermons trying to prove the Word of Yahweh at that point.

Another proof of the earth, the earth not being millions of years old is in helium. Helium 3 and 4 is by-product of radioactive material. It could not be here if the earth was more than six thousand years old. So you there's certain things that break down, right; that start as something and then they break down. And that's one way that we could tell. We could the age of the earth and what not.

Science states that population grows one percent a year on the earth. And every eighty years, two-thirds survive and one-third is lost; per famine, natural disasters, whatever. What's really interesting that if you start at the time of the flood with eight people, and you use their theory, you come out with today, just about exactly how many people on the earth; seven and half million people, roughly.

Even looking at the evolution model that the earth is millions or billions of years old, whatever they say, they have a polystrate fossil in Tennessee that goes through three layers of sediment. There's many of these stories we can go into showing this. According to evolution that fossil would have had to live for millions of years. And like I said, there's many, many, many like that.

So if you see a fossil...there's in California there's a tree trunk that goes through three layers of coal, limestone, coal, sandstone...according to evolution it would have to be millions of years old. We know that trees don't live millions of years old. We know that fossils don't live...you don't have a gecko, or a fossil of a lizard that is going to be two million years old. Yet if you look at the evolution model and you look at the layers of the sediment that they're telling you, "This is five hundred thousand years. This is a million. This is two million." Then you would have to believe that lie.

There's a place in Texas, if you're ever there you can visit it, it's called, The Creation Museum; me and my wife have been there with Dr. Carl Baugh; amazing man that he put all this together. But they have on that property

they found many, many dinosaur fossils that are there. And there was one dinosaur fossil with a human footprint in the dinosaur fossil proving that humans and dinosaurs lived together. And there's even proof that dinosaurs, to one degree or another, are still even around today in certain areas of the world.

So a lot of this, where do they come up a lot of this with carbon dating? Carbon dating is not the best, accurate, reliable source to use when you're dating time; particularly if you're going past six or seven thousand years. A matter of fact, the whole formula for carbon dating breaks down when you past that; and also, carbon dating changes quite a bit in cold and heat and water.

And at the Creation Museum in Texas, they actually have a machine with water pressure and heat that they can produce coal in two hours. So when you're looking at that how long coal would take to produce, they can do it because that's what it is with water pressure and with heat.

So I want to show now some things in scripture: the proof of Bible infallibility. Because there's things that are written in Scripture that we never knew scientifically till recently and yet, they're in scripture that Yahweh knew it all the time. So let me go over some of these, I want to start in Genesis 1 in verse 7...Genesis 1 in verse 7 says:

Genesis 1:7 *And Elohim made the expanse, and He separated between the waters which were under the expanse and the waters which were above the expanse. And it was so.*

Right? So what is He saying? That there were waters above the expanse in the heaven; there was waters below. Waters below, no problem, we see it everywhere we look there's water, there's seas, there's oceans, there's rivers. But what about the waters above?

Well, very interesting, several years back the Hubble space probe saw on Mars that there was ice on Mars. We also know that Saturn has rings of ice...again proving. Because people have a lot of times use this that, "There's no water above. How is it?" Now we know there is. There is water above, there's water below. Genesis 2:7:

Genesis 2:7 *And YAHWEH Elohim formed the man from the dust of the ground, and blew into his nostrils the breath of life; and the man became a living soul.*

Right? To dust you are; to dust you shall return. So man formed the dust of the ground. **There's sixteen elements in clay or dirt that are the same basic elements that are in man.** So that's very interesting...so again proves the Bible now. Before modern times, in all the technological advances we've made, they didn't know this. So it very easily could have been different. There could have been very, very different, but they're not. It's exactly sixteen elements in clay and dirt that are the same basic ones that are in man. Job 37 in verse 16...Job 37 in verse 16:

Job 37:16 *Do you know the balance of the clouds? The wonderful works of Him who is perfect in knowledge?*

What does he mean; do you know the balance of the clouds? Well the clouds balance the atmosphere. **Clouds have weight; air has lesser weight and they balance each other for gravity.** How would Job...Job is the oldest Book in the Bible, right? It's an amazing Book. Hardly anybody reads it; but when you're getting into really, really interesting facts that are true, you always almost always go to the Book of Job. The mazzaroth is in the Book of Job. The creation is in the Book of Job. I mean just about everything that is an unbelievable fact of the Bible, a lot of them are in the Book of Job.

So here it is, he's telling us how clouds balance the atmosphere. Clouds have weight; air has lesser weight; they balance each other for gravity. Job 26 in verse 7:

Job 26:7 *He stretched out the north over the empty space; and **He hung the earth on nothing**...He hung the earth on nothing.*

Like I said, earth hangs on nothing. **How could he know that of gravity**, right? For Isaac Newton and all these other things, how could he know about it? But he did because **he's not writing it; Yahweh is writing it**...Yahweh is writing it. *The earth hangs on nothing.* Job 38 in verse 29 and 30...Job 38 in verse 29 and 30:

Job 38:29-30 *From whose womb comes forth the ice; and the frost of the heavens, who fathered it; the waters hidden like stone, and the face of the deep is captured?*

Right? The arctic ice caps, the ice caps that are there, how would he know about that? Job lived in the Middle East, right? He lived in the land of Jordan. How would he know about the ice caps? Genesis 17...Genesis 17 in verse 11 and 12...Genesis 17 in verse 11 and 12:

Genesis 17:11-12 *And you shall circumcise the flesh of your foreskin. It shall be the token of the covenant between Me and you. And a son of **eight days** shall be circumcised among you, every male in your generation, he that is born in the house, or bought with silver from any son of a foreigner who is not of your seed.*

So very interesting, right? That Yahweh **specifically** says that a male is not to be circumcised when he's thirteen; he's not to be circumcised when he's forty-five; he's not to be circumcised when he's a year or five years old but **he's to circumcised on the eighth day of life**....eighth day, new beginning. Why is that? Well, nobody knows for sure, but one thing we do know is, that the vitamin K and the pro-thrombin which clot the blood rise on the eighth day of life of a male baby. So again, how could that work in evolution? How would that work? Why, why would the Creator who created the human being say on this particular day? He didn't say...He could have said the seventh day, right? Seven is an important number; or the sixth day, six is the number of man. But yet, He says on the eighth day; the eighth day being a day of resurrection, being the day of new beginnings. And that is the day where the vitamin K and the pro-thrombin which clot the blood rise on the eighth day of life of a male baby.

If we go to Ecclesiastes 1...Ecclesiastes 1 in verse 6 and 7...Ecclesiastes 1 in verse 6 and 7. Ecclesiastes is another amazing Book...little Book in the Bible but really, some really amazing facts that are there. We know Solomon wrote the Book; the wisest human that ever lived which they say...but this is interesting in Ecclesiastes 1 in verse 6 it says:

Ecclesiastes 1:6-7 *The wind goes toward the south, and turning around to the north; the wind is going around and around. And the wind returns on its circuits. All the rivers are going to the sea; yet the sea is not full. To the place where the rivers are going, there they are returning to go again...So isn't it kind of interesting, the rain comes from the oceans; **this was not known until the sixteenth century**. So the Bible had it well before that, right? Read it again... *The wind goes toward the south, and turning around to the north; the wind is going around and around. And the wind returns on its circuits. The rivers are going to the sea; yet the sea is not full. To the place where the rivers are going, there they are returning to go again.**

So rain comes from the oceans; not known until the sixteenth century. And yet, Yahweh writes it in His Word. Isaiah 40...Isaiah 40 in verse 21...Isaiah 40 in verse 21 and 22, it says:

Isaiah 40:21-22 *Have you not known? Have you not heard? Was it not told to you from the beginning?...right? From creation...*Did you not discern from the foundations of the earth? He who sits on the circle of the earth, even those living in it are like grasshoppers; He who stretches the heaven like a curtain, and spreads them like a tent to live in;**

He sits on the circle; literally, the sphere, **the sphere of the earth**. So it shows the earth is round; it's a sphere, right? This is well before Christopher Columbus coming over to the new world and seeing that the earth is not flat. Another scripture that shows this is Job 26 in verse 10...Job 26 in verse 10...probably even more proof...Job 26 in verse 10 says:

Job 26:10 *He has described a circle on the surface of the waters to the boundary of light and darkness.*

So again a sphere; and **that's one of the ways we know the earth is not flat because when you're in the water you're always seeing a sphere because of the curvature of the earth**. So wow, all they had to do was believe the Word of Yahweh. And again, the Book of Job, the oldest Book in the Bible, and we would know the earth is not flat...very, very clear...shows the earth is a sphere and not flat, by curvature in the seas.

New Testament...New Testament scripture that shows...1st Corinthians 15 in verse 41...1st Corinthians 15 in verse 41, it says:

1st Corinthians 15:41 *one glory of the sun, and another glory of the moon, and another glory of the stars; for star differs from stars in glory.*

Every star is different and now we understand that only in this generation with the telescopes and the things we have; that all stars are different, they're all unique. And now we know that's true.

So again, when you think about this, the Bible written by 44 men over 1600 years and **every single thing from every Book is exactly perfect and exactly right**. It compliments each other. And that's like the Book of Isaiah says, *line upon line, precept upon precept*. Let the Bible interpret itself. So you're taking a question that comes and you're going to a scripture that could have been written by Isaiah 2700 years ago and then the Apostle Paul could have the answer in his Book written two thousand...written 700 years later. So that's the amazing part of the Bible; it all compliments itself. And like I said, everything is perfect.

Let's go to another subject now with fulfilled prophecy, right? This is one of the things where they try to say, "Isaiah must have been added to. There's no way that this could have worked until the Dead Sea Scrolls come." And I say, "No, Isaiah was not added to." They find the scroll that's more than a thousand older and what happens? It's exactly the same...exactly the same. So let's go now to 1st Kings 13:1-3...1st Kings 13:1-3. (*This is not a prop. We've had electricity that has gone out*) 1st thing, Kings 13 it says:

1st Kings 13:1-3, 5 *And, behold, a man of Elohim had come from Judah to Bethel, by the Word of YAHWEH, and Jeroboam was standing by the altar to burn incense. And he cried against the altar, by the Word of YAHWEH, and said, Altar! Altar! So says YAHWEH, Behold, a son shall be born to the house of David, his name Josiah, and he shall sacrifice on you the priests of the high places who are burning incense on you, and they shall burn the bones of man on you. And on that day he gave a sign, saying, This is the sign that YAHWEH has spoken, Behold, the altar is torn, and the ashes that are on it are poured out...And then what happens? Verse 5... And the altar was torn, and the ashes poured out from the altar, according to the sign that the man of Elohim had given to the Word of YAHWEH.*

So now it's amazingly enough that this scripture, this prophecy is given; it's amazing that the altar's torn exactly like it says it, but what is even more amazing...if we go to 2nd Kings 23, we'll see that **three hundred years later it was fulfilled exactly like this prophet said of Yahweh**. 2nd Kings 23...2nd Kings 23 in verse 15 it says:

2nd Kings 23:15-16 *And also the altar that was in Bethel, the high place that Jeroboam the son of Nebat had made by which he made Israel to sin, both that altar and the high place he broke down, and burned the high*

place; he ground it into powder, and burned the Asherah. And Josiah turned and saw the graves that were in the mount, and sent and took the bones of the graves and burned them on the altar, and defiled it according to the Word of YAHWEH that the man of Elohim had proclaimed, **who had proclaimed these things.**

So okay, someone can say, "Well, he saw the prophecy and he was just doing this to try to fulfill the prophecy." Well that's only half of it! **The prophecy said the name of the King.** How would he know that? How would the mother who's naming him when he's born know that Josiah is going to do this "X" amount of years later?

So it's just absolutely amazing when we look at fulfilled prophecy that **there is no way on earth that that could happen without a Divine Being that's giving the prophecy.** I mean somebody can't be writing a fake prophecy and three hundred years later it happens exactly like that. *(It kind of reminds me of being at the Feast again, right? We had this problem at the Feast with the electricity going out, but here it is...it's nice and cozy)*

Let's go to Isaiah 44, another amazing prophecy in Isaiah 44...Isaiah the 44th chapter and this is again prophesying **not just what someone's going to do, prophesying of the name of a pagan king** that's going to come. So **this isn't even somebody that believes in Yahweh.** So how could, how could that happen, right? But we're going to see it happened exactly like Yahweh prophesied...Isaiah 44 in verse 28...and this is the Prophet Isaiah prophesying this again **two hundred years before** this King Cyrus was even born, he says:

Isaiah 44:28 *He says to Cyrus, You are My shepherd; and he shall complete all My pleasure, even for Me to say to Jerusalem, You are built; and to the temple, your foundations are laid.*

So number one, if you think about it, he's writing this in around 740 BC, right? The Temple isn't destroyed until around 586 BC; a hundred and fifty years later. **He's prophesying not only the Temple being destroyed but the Temple being rebuilt a hundred and fifty years before it's even destroyed.** And it's amazing when you think about this that who would ever even think of something like that? But **it's Yahweh doing it; it's not Isaiah.** And then chapter 45, verse 1...remember man put these chapter breaks in, Yahweh didn't. They should be next...

Isaiah 45:1 *So says YAHWEH to His anointed, to Cyrus, whom I have seized by his right hand, to subdue nations before him. Yea, I will open the loins of kings, to open the two leaved doors before him, and the gates shall not be shut.*

This is exactly how Persia overtook ancient Babylon, right? That Babylon had these gigantic walls and what did they do? There was a river coming underneath the wall; they diverted the river, they went underneath the wall, they opened to two leaved gates. **Yahweh is prophesying this two hundred years before it happens...even to the name of the King! And exactly what's happening to the opening of the doors.** So how on earth can anybody say that it's not true? And then look at verse 4, why is he doing it? He says:

Isaiah 45:4 *For My servant Jacob's sake, and for Israel My elect, I even call you by your name...He's still talking to Cyrus...I name you, but you do not even know Me.*

Cyrus was a pagan king. He didn't know who Yahweh was. And a matter of fact when Cyrus found out this scripture and found out that **Yahweh even named his name** two hundred years before he was born, that's the reason why Cyrus was so **in awe** that Yahweh could that; that he even gave all of the gold and the silver and whatever was needed to the Israelites to go back and rebuild...the Jews, I should say, mostly Jews. There were some Israelites with them but mostly Jews...to go back and rebuild the sanctuary of Yahweh.

So I mean just an amazing prophecy! And that's why you can understand. If you're a non-believer, right? If you're an atheist, what are you going to say? "That was added. That wasn't there. That was added." And that's

what they said. **The oldest copy of the Masoretic text of the Hebrew Scriptures was only a thousand years old.** And they just said, “Oh that was added. That was added!”

Isaiah, there's two writers to Isaiah. There's the prophet and someone's adding later. And then, like I said, as the end time starts, **the day before Israel becomes a nation again**; the day before, what happens? They find, they announce the Dead Sea Scrolls. They show the Isaiah scroll and **it's word for word**...it's word for word. So man, it is unbelievable how perfect this is. Ezra 1 in 1 through 3 shows the fulfillment of this...Ezra 1:1-3. So Isaiah, I'm reading happens two hundred years before that...Isaiah is writing that...then Ezra 1 says:

Ezra 1:1-3 *In the first year of Cyrus King of Persia, so that the Word of YAHWEH by the mouth of Jeremiah might be fulfilled...why does he say Jeremiah? Because that's the Books that are there. Jeremiah didn't write it, Isaiah wrote it. But the Books, the Major Prophets were Jeremiah, Isaiah, and Ezekiel. So he's saying it's in that, just in that book order... YAHWEH stirred up the spirit of Cyrus king of Persia, and he caused a voice to pass in all his kingdom, and also in writing, saying, so says Cyrus king of Persia, YAHWEH Elohim of Heaven has given me all the kingdoms of the earth. And He has appointed me to build Him a house at Jerusalem, which is in Judah. Who is there among you of all His people? His Elohim is with him, and let us go up to Jerusalem, which is in Judah, and build the house of YAHWEH, Elohim of Israel. He is The Elohim, which is in Jerusalem.*

So wow, I mean what are the chances of something like that happening? That there would be a King named Cyrus...just like He said his name...and **at that very time** he'd have to be the very time where the Temple needs to be rebuilt; because Yahweh says after 70 years, He's going allow the Jews to come back and rebuild that Temple. So **there's no way this could happen by chance**...absolutely not. Let's go to Daniel 9...Daniel 9... *(And Yahweh said, "Let there be light!" And there was light. So praise Yahweh in a day where we're talking about His Word and His creation. I didn't plan on having "show and tell" but Yahweh is even amazing in every aspect that you could show)*...Daniel 9...one of the greatest Messianic prophecies in the Bible because it shows exactly when the Messiah is going to come...Daniel 9 in verse 24, he says:

Daniel 9:24-26 *Seventy weeks...or seventy sevens, right? Four hundred and ninety years...are decreed as to your people, and as to your holy city...Jerusalem...to finish the transgression, and to make an end of sin, to make atonement for iniquity, and to bring in everlasting righteousness, and to seal up the vision and prophecy, and to anoint the Most Holy. Know, then, and understand that from the issuing of the word to restore and to rebuild Jerusalem, to Messiah the Prince, shall be **seven weeks and sixty two weeks...69 sevens; 483 years**... It shall be built again, with a plaza and a trench, even in times of affliction. And after sixty two weeks, Messiah shall be cut off, but not for Himself. And the people of a coming ruler will destroy the city and the sanctuary...and then he goes on saying...it will end with floods, and ruins are determined, and war will be until the end.*

So it's really interesting that if you add in those...if you look at when the decree went out 457 BC by Artaxerxes the King, you add in those 483 years...remember there's no zero; a year goes from 1 BC to 1 AD...you come exactly to 27 AD when Yahshua started His ministry...exactly. And that's why I would say to a Jew, "If Yahshua is not the Messiah then who on earth was in 27 AD?" Because this prophecy tells us **exactly** the time is coming. There's no way that you could turn it or whatever it's saying...from this time this decree goes out...it's a Persian king who's making the decree in exactly.

Now what's interesting also about that now is, because we know the Book of Daniel is dual prophecy that the modern decree went out by King Suleiman, right? In 1538 he gave the decree to go and rebuild the walls of Jerusalem again. And when you add in those 490 years you come up to the year 2028.

So all the other prophecies have been right up to now and it seems to be that that's a good indication of...that we are in the last decade...a very good chance the last decade. That's when...by the time this decade ends in ten years, that there's a very good chance the Kingdom of Yahweh could be in here...maybe not. Like I said, I'm not prophesying by the Word of Yahweh, I'm just reading His prophecy and looking at what's happening in the world and saying I believe there's much more than a fifty-fifty chance that the Kingdom of Yahweh could be here by the end of this decade.

So **fulfilled prophecy shows the Word of Yahweh**. It's amazing when we look at this and the prophecies that are coming. Another prophecy, Amos 9: 14 and 15...Amos 9:14 and 15, right?

Amos 9:14-15 *And I will bring back the captivity of My people Israel. And they will build the waste cities, and live in them. They will plant vineyards, and drink the fruit of them. They will also make gardens, and eat the fruit of them. And I will plant them on their land, and they shall never again be pulled up out of their land which I have given to them, says YAHWEH your Elohim.*

So I've given many, many, many, many sermons all over the world about this; about the Restoration of Israel in the end times. We have it on-line, you could look, I probably have easily, easily ten or fifteen, maybe even up to twenty sermons just on this subject. **There's more than a hundred scriptures like this one here in Amos showing Israel to be a nation again in the end time.**

So wow, how on earth can that happen that after two thousand years of not being a nation...after 2520 years of not being a sovereign nation...that **from nowhere Israel becomes a nation again**? No nation in the history of the world **vanished from sight** and then after two thousand years was resurrected again on their **original land** with their **original language**; because again, Hebrew was a language that died out and came back.

So what are the chances that a nation would rise again after two thousand years? And the Bible stated that their neighbor would **hate them** and want to **destroy them**; it's just impossible...it's impossible. There's no other nation in the world today that has every one of their neighbors around them that wants to destroy them. And yet, that's what the prophecy said in **Ezekiel 35**. It said that its neighbors would want to destroy them and whatnot. So **every single prophecy of Yahweh's Word is true**...every single prophecy. It's just amazing as we see this.

The last one is Amos 9 and verse 11...Amos 9 and verse 11, right? And what do we see here? Same chapter as Israel coming back to the land, he says:

Amos 9:11 *In that day I will raise up the...Tabernacle or the... Sukkoth of David that has fallen, and I will wall up its breaks. And I will raise up its ruins, and I will build it as the days of old;*

So what we see here is: back in 2014 they were not even looking for it and what did they find? The Tabernacle of David. One of the greatest honors in my life to be able to have gone there and seen it; to be able to have Yahweh opened my mind to share with the brethren and what it was; to have the proof of that there. And it's just amazing when we think about it. And like I said, it was not like the Ark of the Covenant; which they've been looking for, forever; which isn't even so important because it says when Yahshua returns they'll say, no longer say, "The Ark of the Covenant of Yahweh; the Ark of the Covenant of Yahweh." But yet, the Tabernacle of David which is very important because the standing stone is there from King David showing the covenant of him; showing the covenant that Yahweh made and that standing stone shows the promises of Yahweh are still sure.

So again I have messages on-line on the Tabernacle of David, to understand about that. But just another amazing point of prophecy that Yahweh prophesied about that has happened exactly like He said. Isaiah 55 in verse 8...last scripture here...Isaiah 55 in verse 8 he says:

Isaiah 55:8-11 *For My thoughts are not your thoughts, nor are your ways are not My ways, says YAHWEH. For as the heavens are high from the earth, so My ways are high from your ways, and My thoughts from your thoughts. For as the rain and the snow comes down from the heaven and do not return there, except it waters the earth and make it bring forth and bud, and give seed to the sower and bread to the eater, so shall My Word be, which goes out of My mouth; it shall not return to Me void, but **it shall accomplish that which I please, and it shall prosper in what I sent it to do!***

Praise Yahweh! So **none of His Words will come back void** and that's what we're looking at today. We're looking at this biblical proof; we're looking at whether it's Yahweh showing us about gravity and the different things that we didn't even know about; whether it's Yahweh showing us fulfilled prophecy. He's writing prophesies of hundreds of years before something would happen; or even thousands of years before something had happened, like Israel being a nation.

We're seeing that **not one Word of Yahweh comes back to Him void. Every single that Yahweh has prophesied has come true exactly as He said.** In the end Israel is a nation again with enemies trying to destroy her. Expediential knowledge is filling the earth as we see; society being evil, immoral, worst in history; the rise of earthquakes and famines and deception at an all-time high. It could have been the opposite. Just think about it, just a hundred and fifty years ago in the 1800's was *Little House on the Prairie*; it was very, very different and didn't fit the end-time scenario whatsoever. So it could have been different but it wasn't. Everything is actually as Yahweh said in His Word; **proves His existence and His sovereignty.**

So the next we'll get into some Messianic prophesies also showing things that Yahweh said about the Messiah. And we're going to get into the Bible itself; how it was put together that is impossible when you look at the intricate way the Bible is put together, that it could have been put together by man, but only by Yahweh; and that it can only be the Word of Yahweh.

So until next time, Yahweh bless! Shabbat Shalom!
